

PRESS RELEASE
2009-10-16

HiQ, one of Sweden's most popular employers

HiQ is ranked eight place in the category of IT in the survey among young professionals by Universum Communications. The company obtains the highest position of all the IT consultant companies.

- This is one of the best acknowledgements one can receive. Without our employees we are nothing and I feel immense pride of our talented employees who go out and do a fantastic job, day after day. Earlier this year we were named IT Consultant of the Year by Veckans Affärer, and now we have confirmation that we also qualify as one of the best employers in Sweden. That makes us feel very proud, says a pleased Lars Stugemo, President and CEO of HiQ.

Universum annually compiles a list of the hundred most attractive employers in Sweden in the categories business, engineering and IT. 15 000 people under the age of forty, with at least eight years of working experience, list the top five companies they would most like to work for.

- An award of this kind is an important warrant for the HiQ brand, but naturally nothing that comes for free. Being a good employer and creating a stimulant working environment is something that we work hard at every day. As the current market situation improves we are looking forward to be able to employ new talented colleagues. A day like today going to work feels especially good, says Annika Billberg, Head of Corporate Communications.
