## Sage and ReadSoft sign partnership agreement to widen the capacity of Sage ERP X3

*Sage, a leading supplier of business software, services, and support with 5.7 million customers worldwide, has signed a global partnership agreement with ReadSoft that will enable the integration of ReadSoft software into the solution Sage ERP X3. Together, the two companies will be able to offer a solution that can optimize and secure Document Automation within the ERP system Sage X3.*

Sage is a global company with approximately 14,500 employees and more than 25 years of experience of working with small and medium sized businesses. In France, the company has some 500,000 customers, 2,400 employees and a turnover of €281 million.

“This partnership will optimize and secure Document Automation within Sage X3 through automatic matching of data, document workflow, indexing and archive. It will also reinforce the company knowledge capital as the “document” becomes a key reference within the IT system” explains Benoit Gruber, ERP Market Manager at Sage.

"By allowing electronic processing of incoming invoices, our solution, integrated with Sage ERP X3, will participate in the automation of the full accounts payable process. It will ensure better traceability while dramatically lowering costs and processing times, which is a top priority for enterprises at the moment," says Dan Lundmark, Director of Partner Sales EMEA.

**About ReadSoft**

*ReadSoft is a leading global provider of software solutions for Document Automation. ReadSoft's software enables companies to automate document processes such as data entry, classification, ERP matching, workflows, e-invoicing etc. The results are faster and less expensive document processing, and increased control. ReadSoft is by far the world's number one choice for invoice automation solutions. Since the start in 1991, ReadSoft has grown to a worldwide group with operations in 16 countries on five continents and a network of local and global partners. The head office is located in Helsingborg, Sweden. [www.readsoft.com](http://www.readsoft.com).*

**About Sage**

*Sage is a leading supplier of business software, services and support to 5.7 million customers worldwide. Whilst our heritage is in the small business market we also have the experience and expertise to meet the needs of specific industries and larger organisations. Despite our global reach we have built our success on understanding and meeting the needs of customers in their local markets. Therefore the majority of our products and services are developed and supported locally. This ensures we provide a choice of high quality products and services which are relevant to our customers, use the most appropriate technology and are supported by local experts.
