

Carnegie Investment Bank AB (publ)

(Corp. reg. no. 516406-0138)

Interim report

1 January - 30 June 2010

Interim report 1 January - 30 June 2010

- Income amounted to SEK 825m (637), up 30 percent in relation to 2009
- Operating expenses amounted to SEK 740m (818), a 10 percent decline compared with 2009
- Profit before tax amounted to SEK 167m (loss: 181)
- The earnings improvement was driven by increased income within all business areas
 - Favourable activity within corporate transactions
 - Increased customer activity within Private Banking
 - Higher commission income within Securities
- Peter Lagerlöf was recognized as Sweden's best analyst in a survey conducted by Financial Hearings
- Carnegie was recognized as Sweden's best Private Banking by the business weekly Affärsvärlden
- Pia Marions was appointed as new CFO

_

President's comments

Carnegie reports improved market shares

Carnegie is gaining market shares in the transaction market during 2010, which is reflected in the six-month results. Income is increasing, and Carnegie delivered generally strong earnings for the first six months of the year.

The Investment Banking business area experienced a strong first half-year in terms of mergers and acquisitions (M&A) and equity capital market (ECM) transactions, including initial public offerings (IPO). This was despite a hesitant market climate with market volumes in the Nordic region that were lower than in the year-earlier period. According to independent ranking institutions, Carnegie has been the largest Nordic player within ECM transactions during 2010.

Among the many transactions in which Carnegie was the advisor during 2010, several were noteworthy. These included exchange listings of Byggmax and Wilh. Wilhelmsen; preferential share issues by PA Resources, Micronic Mydata and Medivir, for example; and private M&A transactions for such clients as Tricorona, SeaDrill, BW Offshore and Gunvor Group (in the purchase of Rörvik Timber).

Private Banking continued to show a stable earnings trend during the first six months driven by increased client activity, a greater proportion of discretionary mandates and an improved market position. Income in the Securities business area increased in relation to the previous year, but turnover on the stock exchanges remained on a low level. The market trend was positive on all the Nordic exchanges during the first half of 2010, although there is still a fundamental uncertainty about the economic climate resulting in low activity among institutional investors.

During the period, we supplemented our research department with additional top expertise to be able to deliver the best and most comprehensive research of Nordic companies to our clients. We are also pleased to note that Carnegie advanced in rankings and that we received a number of awards during the second quarter within Private Banking and Securities.

We are cautiously optimistic about market developments and confident of our own ability to take advantage of the business opportunities that will arise in the coming months. We have a strong organisation, an attractive offering and high ambitions. Earnings for the first six months confirm that we are on the right track.

Frans Lindelöw,

President and CEO

Income

Income during the first half of 2010 amounted to SEK 825m (637), an increase of 30 percent, compared with the corresponding period of 2009. All business areas reported increased income in relation to the comparison period. Income within Securities amounted to SEK 351m (298). The increase was due to higher commission income. The Investment Banking area reported income of SEK 266m (142), up 87 percent on 2009, which was attributable to sharply increased activity in all segments of the transaction market (M&A, ECM and IPO). The Private Banking business area showed positive capital inflows during the second quarter, and client activity was higher than in the corresponding period in 2009. In total, income in the Private Banking business area amounted to SEK 209m (197).

Expenses

Expenses before credit reserves for the first half of 2010 amounted to SEK 740m (818). The item "Other expenses" declined by 29 percent, which was due to effects from implemented savings programmes. Fixed personnel costs were lower for the first half of 2010, compared with the previous year, although total personnel costs were higher since allocations to the employees' profit-share increased.

Profit

Profit before credit reserves for the first half of 2010 amounted to SEK 85m (loss: 181). Reversals of credit reserves had a positive effect of SEK 82m (0) on profit. Profit before tax for the first half of 2010 amounted to SEK 167m (loss: 181), and net profit for the period amounted to SEK 147m (loss: 179).

¹⁾ The income statement for the period January – June 2009 was adjusted with respect to divested operations, meaning that it is presented excluding Asset Management.

Important events during the period

Pia Marions new CFO

Pia Marions was appointed new CFO for Carnegie. Pia Marions has extensive experience from the financial sector, most recently as Chief Operational Officer at the Royal Bank of Scotland in the Nordic region. Her previous experience includes positions as CFO at Skandia Liv, Head of Finance at Länsförsäkringar Liv and Head of the Financial Risk Analysis unit at the Swedish Financial Supervisory Authority. Pia Marions assumes her position on 1 October 2010 and will become part of Group Management.

Sweden's best Private Banking

According to a comparison of Sweden's leading private banking players, confidence is highest for Carnegie's services. The survey, which was conducted by the business weekly Affärsvärlden and reported in May, evaluated and ranked customer care, products and services, as well as the customer service and investment processes.

The survey included all five major banks and four smaller specialised players in the Swedish markets. With 26.2 points of a possible 30, Carnegie's Private Banking received the highest score of all players in the survey.

Sweden's best analysts

In June, Peter Lagerlöf was recognised as Sweden's best analyst overall in a survey by the company Financial Hearings. The survey was based on interviews with several Swedish institutional investors. Carnegie received top rankings in the same survey in a number of sectors, Kristofer Liljeberg-Svensson was ranked number one in Healthcare, Johan Sjöberg was ranked number one in Metals and Mining, and Mikael Löfdahl was ranked number one in Services and Transports. Peter Lagerlöf was also ranked number one individually in Strategy and Macro analysis.

Risks and uncertainties

General information on risks and uncertainties

The business activities of the Carnegie Group expose Carnegie to market, credit, liquidity and operational risks. Market risk is defined as the risk of loss due to changes in market prices, e.g. changes in equity prices, interest rates, or currency exchange rates. Credit risk is defined as the risk of loss due to counterparty defaults on loans. Credit risk mainly arises as a consequence of loans to clients using shares as collateral. Liquidity risk is related to the need for liquidity in the day-to-day operations. Operational risk is the risk of loss resulting from inadequate or failed internal processes and systems, alternatively human error or external events. A more detailed description of the Carnegie Group's risk management is presented in the 2009 Annual Report.

Capital requirements and capital quotient

The table below presents the capital requirements and capital quotient according to the Swedish Financial Supervisory Authority's directive FFFS 2007:5 regarding publication of information on capital coverage. The capital quotient is calculated as the ratio between the capital base and capital requirements. The capital quotient may not fall below 1 according to the legal requirement, On 30 June 2010, Carnegie had a capital quotient of 2.9, corresponding to a Tier 1 capital ratio of 23.0 percent (21.1)

A detailed description of the Carnegie Group's capital adequacy is provided in the 2009 Annual Report, as well as on Carnegie's web site at www.carnegie.se.

Cash, cash equivalents, financing and investments

Carnegie's liquidity needs result primarily from its daily operations, and they are satisfied by means of short-term borrowing against collateral. Cash flow from operations before changes in working capital amounted to SEK 82m (neg. 445) during the first six months and consisted of income before tax of SEK 167m (loss: 101), tax payments of SEK 9m (expense: 137) and adjustments for non-cash items corresponding to an expense of SEK 76m (expense: 207). Of these adjustment items, unrealized changes in the value of financial instruments accounted for an expense of SEK 46m (expense: 177). Since most of Carnegie's working capital consists of market-listed securities (long and short positions), lending and borrowing to and from the public, and loans to and from credit institutions, Carnegie's working capital fluctuates significantly between reporting dates. The change in working capital during the first six months of the year had a negative effect on cash flow of SEK 27 m (pos: 1,034).

Cash flow from investing activities for the first six months of the year was negative in an amount of SEK 13m (neg: 29. For the comparison period corresponding to the first half of 2009, sales of subsidiaries had a negative impact of SEK 10m on cash flow from investing activities and consisted of divested cash and cash equivalents. Cash flow from financing activities during the period was negative in an amount of SEK 525m (0) and consisted in its entirety of dividend payments.

After adjustment for exchange-rate changes in cash and cash equivalents corresponding to an expense of SEK 285m (income: 26), the effect was that cash and cash equivalents decreased by SEK 483m (increase: 550) during the first half of 2010. The Group's borrowing during the first six months of the year decreased by SEK 496m (increase: 34), while lending during the corresponding period declined by SEK 1,013m (increase: 1,706).

Summary of the Parent Company

Total income in the Parent Company amounted to SEK 407m (393) during the period. Profit before tax amounted to SEK 32m (loss: 139). Net investments during the period amounted to SEK 6m (19) for the Parent Company. Cash and cash equivalents, defined as cash and lending to credit institutions, amounted to SEK 2,882m (2,426) for the Parent Company on 30 June 2010. On the same date, shareholders' equity amounted to SEK 2,238m (2,405).

OTHER

Accounting policies

This report was prepared in accordance with IAS 34 Interim Financial Reporting, the Annual Accounts Act for Credit Institutions and Securities Companies (1995:1559) and the Swedish Financial Supervisory Authorities' regulations (FFFS 2008:25). The Parent Company's accounts were prepared according to the Annual Accounts Act for Credit Institutions and Securities Companies, FFFS 2008:25 and RFR 2.2. The accounting policies and calculation methods applied in this report are the same as those used in the 2009 Annual Report.

Note that rounding may result in amounts in SEK millions not agreeing when summed. All comparison figures in this report refer to the corresponding period in 2009 unless otherwise specified.

Operations

Carnegie Investment Bank AB (publ) (Carnegie) is a wholly owned subsidiary of ABCIB Holding AB (corp. reg. no. 556780-4983 with registered offices in Stockholm). Carnegie conducts securities trading, advisory services for corporate transactions and private banking operations in accordance with permits from the Swedish Financial Supervisory Authority. Operations are primarily focused on Nordic securities. In addition to business conducted through branch offices in Finland, Norway and the UK, the company conducts operations through foreign subsidiaries in Norway, Denmark, Luxembourg and the US.

Auditor's review report

This report has not been audited.

Certification

The Board of Directors and the President hereby certify that this interim report provides a true and fair summary of the operations, financial position and earnings of the Parent Company and the Group and the risks and uncertainties that the Parent Company and the Group face.
