

NEWS RELEASE**Enea Middleware Selected for Third Project at North American Communications Leader**

STOCKHOLM, Sweden, and SAN JOSE, Calif., Oct. 2, 2008 – Enea® (Nordic Exchange/Small Cap/ENEA), a world leading provider of network software and services, today announced that a leading North American communications equipment provider has selected Enea® Element as the communications software platform for its latest project. This is the customer's third Element license. The order value is estimated to USD 220 000 and encompasses a third license as well as an upgrade to Element 3.0, offering full in-service-upgrade functionality, for the two existing licenses. The deal was signed during the third quarter.

“Repeat business is the ultimate validation of our value proposition,” said Åsa Landén Ericsson, president and CEO at Enea. “We are pleased that this important customer has again selected Enea as a trusted supplier and our Element product as the foundation on which they will innovate.”

Enea Element is a suite of high-availability, standards-based middleware services that integrate the hardware and system software components into an integrated communications platform. It provides a framework for building the robust, high-performance applications that are powering the next generation network. By leveraging a commercial off the shelf middleware solution like Element, equipment manufacturers are able to more rapidly deliver next-generation communications systems, while lowering costs, reducing project risk and focusing development efforts on innovation and differentiation.

About Enea

Enea (Nordic Exchange/Small Cap/ENEA) is the leading supplier of real-time operating systems, middleware, development tools, database technology and professional services for high-availability systems such as telecommunications infrastructure, mobile devices, medical instrumentation, and automobile control/infotainment. Enea's flagship operating system, Enea OSE®, is deployed in approximately half of the world's 3G mobile phones and base stations. Enea has over 700 employees and is listed on the OMX Nordic Exchange Stockholm AB. For further information on Enea, please visit www.enea.com.
