### Framfab secures its financing

Framfab announces that it has entered into underwriting arrangements with Ice Securities and Alfred Berg for a total MSEK 100, in addition to the commitments for MSEK 15 received from senior executives and founders of Framfab and Skandia as mentioned in the prospectus.

The company announced on May 25, 2001 that Framfab's directed issue of new shares to strategic and institutional investors that took place between May 9 and May 24 had been oversubscribed.

The directed issue of MSEK 175 becomes unconditional following completion of the preferential issue at a minimum level of MSEK 100.

"This is very positive for Framfab, its employees, customers and shareholders that both new issues now are secured," said Sven Skarendahl, Chairman, Framfab.

"We can now focus on strengthening our client relations further and at the same time build a profitable Framfab", said Johan Wall, CEO, Framfab and added:

"I am also very grateful for the support from our employees. Their level of commitment over the last few months has been outstanding."

The subscription period for the issue of new shares with preferential rights to existing shareholders is from June 5 through June 19, 2001. More information about the terms and conditions of Framfab's new share issues can be found in the press release of May 25, 2001. The prospectus is available at <http://www.framfab.com/>.
