

Framfab signs agreement with Orange Sweden

Framfab Sweden has signed a framework agreement with Orange Sweden. Through this agreement, Orange Sweden has chosen Framfab as supplier of Internet services and business consulting.

Framfab has worked with Orange Sverige for around a year. Some web sites have already been set up, including a site devoted to the recruiting campaign currently being run by Orange.

Johan Wall, Group CEO of Framfab, has a very positive view of the new agreement. "The fact that we are now in a position to increase volumes for relatively new customers is a message of strength from Framfab – as is the fact that we simultaneously have a wide group of very faithful and large key clients," said Johan Wall.
