

Press release

June 19, 2001

### **Positive outlook for Cell Network's new share issue**

"The outlook for Cell Network's new share issue is positive," says CEO Niklas Flyborg. "A substantial part of the issue has been subscribed to."

"As planned, our advisors will provide the final report on the new share issue on Thursday June 21. It is unfortunate that the slow banking system does not allow for faster information on results of new share issues of this kind, where you subscribe through payment."
