Telelogic signs Corporate Agreement with Ericsson

MALMÖ, Sweden, June 26, 2001 – Telelogic (Stockholm Stock Exchange:TLOG), a world-leading provider of solutions for advanced software development, today announced that it has signed an extensive Corporate Agreement with Ericsson concerning supply of its world class software development tools world wide. The parties view this agreement as an important and major breakthrough in making the full range of Telelogic software tools available in a generic and standardized manner to Ericsson's community of software engineers.

"This agreement significantly expands Telelogic position as a vital strategic supplier to Ericsson. We are proud and pleased in having agreed with Ericsson, being a long-term and major customer of Telelogic, on this new business model for use of our tools.", says Anders Lidbeck, President & CEO for Telelogic.

The parties expect rollout of Telelogic tools to Ericsson to start immediately. The parties have agreed not to reveal the value of the agreement.

Telelogic expects no significant impact on the financial forecast for year 2001. However, the agreement will underpin this target.

About Telelogic (Stockholm Stock Exchange/TLOG)

Telelogic is a leading global supplier of solutions for advanced software and systems development. By providing integrated best-of-breed products and professional services for the end-to-end software development lifecycle, Telelogic enables organizations to improve quality and predictability, while reducing time-to-market and overall costs. Built on an open architecture that ensures interoperability with many top tier technology solutions, Telelogic's products are based on international standardized languages and notations. Telelogic participates in 3GPP, Bluetooth SIG and OMG to monitor and help create future communication technologies and visual software development languages.
