Australian Transport Safety Bureau (ATSB) Releases Kendell Airlines Air Safety Investigation Report

The Australian Transport Safety Bureau (ATSB) has released the final Air Safety Investigation Report for the November 11th, 1998 incident of Kendell Airlines Saab 340, registration number VH-LPI, which experienced an aerodynamic stall while operating in icing conditions.

The Air Safety Investigation Report, released in April 2001 provides findings and results of the investigation. Copies of the report can be obtained by contacting the ATSB at:

Australian Transport Safety Bureau
P.O. Box 967
Civic Square ACT 2608
Australia

The report is also available on the internet at www.atsb.gov.au

Saab Aircraft AB, with offices in Linköping, Sweden and Sterling, Virginia in the U.S. supports and maintains the combined Saab 340 and Saab 2000 fleet of over 500 aircraft in service with operators around the world. Saab Aircraft AB is part of the Saab Aviation Services Business Unit of Saab AB.

Saab is one of the world's leading high-technology companies, with its main operations focusing on defense, aviation and space. The group covers a broad spectrum of competence and capability in systems integration.
