Dimension signs partnership agreement with Skanska

The Swedish IT integrator Dimension has signed a partnership agreement with Skanska. Dimension will be Skanska's main discussion and cooperative partner on IT infrastructure as well as its systems supplier.

Skanska is one of the world's leading construction and project development companies, with operations in around 60 countries around the world. When the company some time ago installed a new business system, the job of developing and implementing the related storage solution went to Dimension. This new partnership agreement strengthens the cooperation and makes Dimension a systems supplier of products and services for Skanska's total IT environment.

"Like Dimension, Skanska is a company that stands for high technological expertise and competence," says Sven Uthorn, Managing Director of Dimension AB. "That makes this a very exciting and challenging cooperation we are entering. Both companies want to steadfastly remain in the forefront in business-critical and custom-designed solutions. When a large, demanding client such as Skanska selects Dimension as a partner, it is definitely a feather in our cap."

The open agreement with Skanska will be reviewed every twelve months.

About Dimension

Dimension is an IT integrator that designs and implements infrastructure to handle business-critical information. Examples include advanced server and data storage solutions for e-commerce and Internet banking systems, Internet/intranets and business systems. Clients are primarily in telecommunications, banking & finance, media and industry. The wholly owned Group subsidiary Next Nordic works with the sale of Sun systems and related products to resellers. In the last ten-year period the Dimension Group has grown organically by an annual average of 71 percent, with operating margins of 8-10 percent. In 2000 Dimension's sales amounted to SEK 1,475 million, with a profit after financial items of SEK 138 million. The Group has 270 employees in Sweden, Norway, Denmark, Finland, Latvia and Lithuania. The head office is located in Bromma, Stockholm. The Dimension share is listed on the Stockholm Exchange's O-list.
