

## PRESS RELEASE

Nyköping July 5<sup>th</sup>, 2001

### ADRIA AIRWAYS ORDER ZONAL DRYING SYSTEM FOR THEIR FLEET OF CRJ200 AIRCRAFT.

Adria Airways, based in Ljubljana, Slovenia, have ordered Zonal Drying<sup>TM</sup> System for their fleet of four (4) CRJ 200 aircraft.

Installation of the first system is planned for September 2001 with the remaining aircraft equipped with the Zonal Drying<sup>TM</sup> System before the end of 2001.

CTT Zonal Drying<sup>TM</sup> System has been in commercial operation since 1994 at a number of airlines, see below

- "I am glad to welcome Adria Airways to our increasing customer base, comments CTT Systems Marketing and Sales Director, Mr Gunnar Nilsson. Adria Airways have been monitoring the evaluation with Lufthansa CityLine and Bombardier and this is the first result of our co-operation with Bombardier in supporting our system to prevent condensation. ", ends Mr. Nilsson

The CTT Zonal Drying<sup>TM</sup> System is designed to combat water condensation in the thermal and acoustic insulation of modern passenger aircraft. Airlines can use the Zonal Drying<sup>TM</sup> System to reduce maintenance costs by increasing the service life of the insulation and realize significant fuel savings by eliminating the non-revenue weight of the accumulated water condensate. By keeping dry the area between the interior trim panels and the aircraft skin, the Zonal Drying<sup>TM</sup> System also reduces corrosion and the risk of failure of electronic systems and wiring.

With the Zonal Comfort<sup>TM</sup> System, which is based upon the evaporative cooling technique, CTT System is now able to provide the industry with a complete moisture management system. The system provides increased humidity for passengers and crew, in particular on long-haul flights, while at the same time condensation is prevented with the Zonal Drying<sup>TM</sup> System.

To date, CTT has the following additional customers for the Zonal Drying<sup>TM</sup> system:

- **Martinair** for B767-300 and MD11
- **Jet Aviation** for Executive aircraft's B767-200, B757-200 and Boeing Business Jet
- **KLM Royal Dutch Airlines** for MD11 and B767
- **Austrian Airlines** for MD80
- **LTU** for Airbus A330

- **Raytheon Systems Company** regarding NASA/DLR SOFIA-project (Stratospheric Observatory For Infrared Astronomy)
- **Swissair** for MD11
- **Sterling European Airlines** for Boeing B737-800
- **Hapag-Lloyd** for Boeing B737-800
- **Icelandair** for Boeing B757
- **Lufthansa CityLine** for CRJ 100/200
- **Airbus** as option for A330 and A340
- **FMV (Swedish Airforce)** for C130 (Tp84) Hercules

and for the Zonal Comfort <sup>TM</sup> System:

- **SAS** for Boeing B767
- **Lufthansa Technik** for Boeing Business Jet

CTT Systems AB is located in Nyköping, Sweden and listed on the Stockholm Exchange AB O-list in Stockholm.
