

Dymista filed with the FDA

A New Drug Application for a novel formulation of azelastine hydrochloride and fluticasone propionate, tentatively named "Dymista", has been submitted to the U.S. Food and Drug Administration (FDA). Dymista (also known as MP29-02 in clinical trials), is a nasal spray formulation for patients 12 years and older with seasonal allergic rhinitis.

Efficacy and safety of Dymista has been documented in several studies involving over 4,000 patients, including a long term safety study with more than 600 patients.
