

Gambro signs a SEK 60 million Algerian contract

Gambro has signed a SEK 60 million contract with IMC - Industries Medico Chirurgicales in Algeria. The contract covers deliveries of at least 300 dialysis monitors with spare parts and water treatment equipment, during a period of three years. This is a major break-through for Gambro in the Algerian market. IMC has an exclusive contract with the government of Algeria to supply hospitals and clinics with dialysis equipment.

A five year export credit has been structured by Gambro Credit and will be financed by MeritaNordbanken backed by a guarantee from EKN - "Exportkreditnämnden", the Swedish export credit agency. The financing was an integral and important part of the package offered to IMC.
