Trio signs WAT agreement with TDC Mobil

Trio has signed an agreement regarding delivery of Wireless Attendant Terminal (WAT) to TDC Mobil in Denmark. The initial value of the agreement is exceeding 150 000 Euros. WAT gives TDC Mobil a flexible entry-level switchboard attendant solution to be offered in conjunction with their Mobile VPN Service.

"Trio's WAT is a good complement to our mobile office solution. Total mobility gives a great deal of flexibility to our enterprise customers", says Jens Christian Agger, Director of Value Added Services of TDC Mobil.

"We are delighted to support TDC Mobil in the development of an attractive product portfolio for business users. This deal further strengthens the position of WAT as a competent switchboard attendant solution for small enterprises", says Sverker Hannervall, President and CEO of Trio AB.
