National Corporation of Swedish Pharmacies selects Cyber Com

Cyber Com is among six selected IT service providers with which Apoteket (National Corporation of Swedish Pharmacies) is now signing frame agreements.

The agreement covers two years and applies to consulting services – primarily within business analysis and strategy, system development, and project management and also within technology, customer support, and operations. The deal is worth SEK 200 million. Apoteket is signing the agreement to limit the number of suppliers and to position itself as a larger customer among its selected partners. More than 100 companies expressed desires to become suppliers to Apoteket, which selected six – Cyber Com is one of the six. Cyber Com has been delivering consulting services to Apoteket.

“It’s a great pleasure to be a selected Apoteket supplier,” says Bo Olofsson, project manager and managing director of Cyber Com Intra-X. “We’ve been working with the company for three years. At the start, we dealt with project management. Now, we’re providing technical specialists. I have been working as a project manager for Apoteket, and I think it’ll be exciting to work with the company’s business development during the coming years.”
