NeoNet Launches Electronic Trading Access to the Amsterdam Stock Exchange

NeoNet, a leading provider of real-time equity trading services for institutional investors and broker-dealers, today announced that the company now offers direct electronic trading to the stock exchange in Amsterdam.

Earlier this year, NeoNet announced that the company had finalized its electronic connection to the Euronext platform, which is a merger between the Paris, Amsterdam and Brussels stock exchanges, with immediate trading access available to the Paris exchange. With today's announcement, trading access through NeoNet's electronic exchange network is now available to the Amsterdam exchange.

Trading access to the Brussels Stock Exchange, which is the third and smallest exchange of the Euronext merger, can be offered through NeoNet when Brussels has been integrated with Euronext's clearing platform. Latest indications from Euronext's clearinghouse Clearnet is that Brussels is planned to be integrated first half of 2002.

NeoNet's pan-European trading platform provides institutional investors and broker-dealers worldwide with increased sources of liquidity and access to cross-border trading functionality. In addition to Euronext Paris and Euronext Amsterdam, NeoNet also offers electronic trading access to the London, Frankfurt, Stockholm, Helsinki and Copenhagen stock exchanges.
