

TietoEnator takes a full ownership of European Medical Solutions

TietoEnator has acquired the minority shares, 42 percent, in the joint venture company European Medical Solutions Group AS that was founded in year 2000 together with EDB Business Partner. European Medical Solutions Group AS thereby becomes fully owned by TietoEnator.

TietoEnator is today the leading IT service provider in the Nordic health care sector with nearly 300 IT professionals specialised in health care information systems. The acquisition further strengthens the company's commitment and engagement in the Nordic health care market.

European Medical Solutions, with 105 employees in Sweden, Norway and Denmark, is already an integrated part in TietoEnator's health care operations. The target is to increase the strength of this powerful organisation with the aim to create value for the customers and provide personnel growth for the employees.

- This is a new important step in our consolidation and integration of the Nordic health care IT market. We have proved that our strategy works by generating rapid profitable growth in a difficult market segment. We are now focusing to make benefit of the synergies in products and services for our Nordic customers, says Juhani Kaisanlahti, head of TietoEnator HealthCare.

TietoEnator's health care operations provide product brands as Infomedix, Efficia and FlexLab.
