TAPtools® Alliance – MoU signed at ATC Maastricht Exhibition

Four leading companies in Air Traffic Management (ATM) join forces to set new standards in Air Traffic Control (ATC) Tower Environment. At ATC Maastricht Exhibition, Saab, HITT Traffic, RUAG Aerospace, and Frequentis signed a Memorandum of Understanding to optimise the interoperability of their products.

TAPtools® (Tower and Airport Tools) will become a brand name for products with an assured high quality standard, added inter-product functionality within the product family, general compatibility through standardised interfaces, low lifecycle cost and supported by joint and harmonised research and development by the partners.

Saab is one of the world's leading high-technology companies, with its main operations focusing on defence, aviation and space. The Group covers a broad spectrum of competence and capability in systems integration.
