

Helsingborg 10 March 2003

ReadSoft at AIIM, San Francisco 2002

ReadSoft at CeBIT, Hanover 2002

ReadSoft captures CeBIT and AIIM

In March and April, ReadSoft will be showing off the latest innovations within automatic document capture at two important IT-exhibitions. First in line is the largest technology show in the world, CeBIT in Hanover. A couple of weeks later, ReadSoft goes to the American document management exhibition AIIM, this year arranged in New York City.

ReadSoft's busy spring starts at the IT and telecommunications event, CeBIT. This will be the eighth CeBIT show for ReadSoft. Customers, potential customers and partners from all corners of the world will come to experience ReadSoft's technology which offers automatic document capture and information handling from a broad scope of media such as the web, email, fax and paper based documents. ReadSoft's successful strategy to penetrate the SAP-sphere with invoice handling technology is one of many fine stories presented at CeBIT this year.

In early April, the focus is on New York City, where the world-leading document show AIIM takes place. For the last five years ReadSoft has been awarded "Best of AIIM" for innovative, cutting-edge solutions for automatic document capture. At AIIM 2002 ReadSoft was praised for the INVOICES product's forward-thinking, SAP integration, and eMail functionality.

At both shows, ReadSoft will demonstrate the *e-capture* concept and all of its customer benefits. This year ReadSoft continues to focus on the latest innovations within the INVOICES and free form technology, SAP integrations, new electronic invoice interchange technology and the ground-breaking new collaboration with Anoto, creator of the digital paper and digital pen technology.

CeBIT, takes place in the German city of Hanover, 12-19 March. CeBIT attracts some 900,000 visitors and is considered to be the number one convention within IT and Telecom. Welcome to ReadSoft in Halle 1, booth 8c2.

AIIM, this year held in New York City, 7-9 April is recognized as the most important event in Document Handling and Imaging. Visit ReadSoft at Jacob K. Javits Convention Center, booth 2745.
