

Press release 14 March 2003

Trio signs an order with Telenor Mobil and continues the expansion of mobile office services

Trio has signed an order worth approximately 2.3 million SEK and continues the expansion of "ProffNett", Telenor Mobil's mobile office solution for the Norwegian corporate market. The order is based on Trio Mobile Office, a concept for mobile operators that enables customers to switch, either partly or completely, from fixed to mobile telephony.

ProffNett is pivotal to Telenor Mobil's portfolio of value-added services aimed at corporate customers. The order will enable Telenor Mobil to further expand its network capacity to meet the growing number of customers.

"Trio Mobile Office satisfies a growing need felt by companies, and this is reflected in the influx of subscribers to ProffNett. Trio Mobile Office makes it possible to replace fixed telephony with mobile telephones. The switch functions are included in the operator's network. All the customers need is mobile phones," says Sverker Hannervall, President and CEO of Trio.

Trio Mobile Office enables either a direct or a gradual transition from fixed to mobile telephony and is available as a subscription service from mobile operators. It is installed as a turnkey solution by Trio in the operators' networks.
