Länsförsäkringar selects Ecovision as new provider of financial information feeds

Ecovision AB has received an order from Länsförsäkringar AB regarding delivery of financial information feeds.

Ecovision will be the new provider of financial information feeds to Länsförsäkringar's Internet and intranet services. Ecovision, through its subsidiary Newmedia, is already the provider of the technology and the operations of the Internet services.

Länsförsäkringar has also chosen Ticker News Agency, a subsidiary in the Ecovision group, as the provider of financial news.

- Ecovision's total concept with development and operations of Internet services together with information feeds and financial news suits us very well, says Mikael Östlund, Information Manager at Länsförsäkringar.

The contract with Länsförsäkringar is a great success for Ecovision which by the acquisition of Newmedia in July this year has strengthened its position as one of the leading Nordic providers of financial information.

Länsförsäkringar, organised with 24 independent regional insurance companies and the jointly owned Länsförsäkringar AB, is Sweden's only customer owned and local banking and insurance group.

Ecovision group revenue in 2002 amounted to 64.4 million SEK and the operating result was 8.6 million SEK. The Ecovision group has, the acquisition of Newmedia included, 42 employees and has activities in Sweden, Norway, Finland, Denmark and the Netherlands.

The Ecovision Group has three business areas: Ecovision ProTrader - a real-time information system, Ecovision Newmedia - developing and operating customized trade- and information services, and the Ticker News Agency, with real-time news for the financial markets.

The Ecovision share is listed at the Stockholm Stock Exchange, New Market.
