No 44/03

NCC to rebuild and manage healthcare center in Espoo, Finland, for SEK 177 million

NCC has been commissioned by Nordisk Renting to convert a property in Espoo, just outside Helsinki, into a healthcare center and to be responsible for the center's management for 25 years. The order is worth approximately SEK 177 million (EUR 20 million).

The 8,000-square-meter building is located in Tapiola, one of five town centers in Espoo. The City of Espoo is a long-term tenant in the building.

Nordisk Renting has acquired the property.

“NCC is a leading company in the Finnish market for PPP (Public Private Partnership projects) projects, which entails that we build properties and assume responsibility for their maintenance. However, since we do not focus on owning properties, cooperation with Nordisk Renting is an excellent arrangement,” says Jukka Lahtinen, Deputy President of NCC Construction Finland.
