Resco starts international company

"The new company gives us the opportunity to offer international customers our presence in Europe. It is the first step towards an increasingly international orientation for Resco," says Kjell Jacobsson, Managing Director of Resco.

"Resco International Program Management will start its operations in June, primarily concentrating on operations development and business systems. The objective is to offer assistance to international organisations during large restructuring projects," says Head of Business Area Hans Sjolund. Through this, Resco is adding to its expertise within the framework of project management for large international corporations. The company is expected to have 12 employees at the turn of the Millennium.
