PRESS RELEASE

LGP Allgon provides UMTS indoor coverage solution at 3GSM world congress in Cannes

LGP Allgon, the global supplier of infrastructure solutions for mobile communications networks, has provided the indoor coverage solution at Intercontinental Carlton in Cannes. LGP Allgon technology secured Orange's live presentations of their new 3G services during the 3GSM World Congress in Cannes, at press meetings as well as user conferences.

- It is a great privilege to be the first choice and once again demonstrate the reliability of LGP Allgon's new UMTS product line, says Bengt Broman, President and CEO of LGP Allgon.

LGP Allgon consists of two business areas: Telecom and Contract manufacturing. Business area Telecom, which stands for about 85 percent of net sales, develops, manufactures and markets telecom products that improve radio coverage, capacity and data transmission speed in mobile communications networks all over the world. The product line includes antenna systems, coverage solutions, base stations systems and radio link systems.

In business area Contract manufacturing, LGP Allgon is, in its niche, a leading contract manufacturer of advanced industrial components.

The Group has about 1,600 employees in 13 countries and annual sales of about 2.5 billion kronor. LGP is listed on the Attract40 list of the Stockholm Stock Exchange.
