

Press release, 17 June, 2004.

Harris orders NICAM from Factum Electronics

The American company Harris Broadcasting Corporation has ordered NICAM encoders (digital stereo sound for analogue TV) from Factum Electronics AB. The total value of the order is estimated at around SEK 1,8 million.

Factum Electronics is today the world-leading company within the NICAM area and has supplied equipment to customers in over 30 countries worldwide. Factum Electronics offers a full range of NICAM encoding and decoding system components and end-to-end solutions for both complex broadcasting environments and local cable-TV systems.

“Since the late eighties, we have put tremendous efforts into research and development, therefore, we can today offer the number one NICAM solution for both broadcasting and cable-TV”; says Kenneth Lundgren, MD, Factum Electronics AB.
