

EUROPOLITAN

PRESS RELEASE - Karlskrona 6 September 1999

Europolitan launches new subscriptions

The new Europolitan Multi offers low call charges and a whole range of services

Europolitan is now launching Europolitan Multi – the perfect subscription for those who make a lot of calls and want advanced services. Europolitan Företag 1, a flexible subscription that customers can tailor to their needs, is being released at the same time.

“Europolitan Multi is a subscription for customers who want their mobile telephones to do it all,” says Mikael Kluge, Marketing Director at Europolitan AB. “The subscription enables them to carry their offices around in their pockets – literally.”

Europolitan Multi includes the new service Europolitan Data 43k, which makes it possible to transfer data at speeds of 43.2 kbits/s and 14.4 kbits/s, depending on the speed supported by the telephone. Europolitan Data 43k makes Europolitan the first company in the world to increase transfer speeds in a mobile network to 43.2 kbits/s.

Europolitan Multi contains a whole range of services. In the monthly charge the following services are included: Number Presentation, EuroText, TextInfo, EuroFax, EuroFax Pro, europolitan@internet and Europolitan Data 43k. Included is also the voice mail service EuroVoice which will be replaced by EuroVoice Pro – Europolitan’s unified messaging service that will be launched shortly. All the Standard Services – Call Waiting, Conference Call, Call Hold and Call Forwarding – are also included in the monthly charge. A twin card can be ordered at no extra cost. The call charge is low, and when the customer makes a lot of calls, the price decreases from the first minute.

The other big news is Europolitan's Företag 1, a flexible subscription that customers can tailor to their needs. EuroText and EuroVoice are included, like all the Standard Services, but otherwise customers are free to choose any additional services they would like. The subscription has a volume discount, which means that the more you call, the lower the charge is. Both subscriptions were introduced today and can be signed by companies and private individuals alike.

Price list in SEK, VAT excluded.
