

Sigma renews framework agreement with leading telecom provider

Sigma has renewed its framework agreement with a world-leading telecom provider for consulting services in the area of technical documentation, IS/IT, research and development, as well as mechanical engineering and design.

"Sigma has cooperated with Ericsson for nearly ten years on research and development, IS/IT and technical documentation," says Carl Vikingsson, President of Sigma Information Design and business area manager for Information Solutions. "We are now building on this positive cooperation with an extended framework agreement that applies until the first quarter of 2005."

Sigma delivers IT solutions and consulting services to development-intensive customers. Operations are based on entrepreneur-driven, niche-oriented subsidiaries, which are organized through the Business Solutions, IT Solutions and Information Solutions business areas. The Group has approximately 750 employees in Sweden, Denmark, Finland and Switzerland. Sigma is listed on the O-List of Stockholmsbörsen (Stockholm Exchange). www.sigma.se
