Marc Beuls, Millicom's President and Chief Executive Officer stated:

"Millicom's underlying business grew more strongly in the third quarter than in the second quarter with an 8% increase in pro forma revenues. The pro forma numbers exclude Vietnam, where our BCC ended in May and include Millicom's joint venture in Honduras with a percentage ownership of 66.67% to reflect the increase in ownership from 50% in May 2005. Pro forma EBITDA was up by 6% from the second quarter of 2005. The main driver in revenue growth was a 13% increase in revenues in Central America, 10% in South America and the 5% growth in revenues in Africa, which continue to be our star performers."

"The Latin American market has seen a strong acceleration in subscriber growth since the launch of GSM and the Tigo brand in 2004, and this has continued to gather momentum as Millicom continues to take market share in Central America. In Africa, Ghana and Senegal were particularly strong markets and Tanzania is beginning to improve its performance. Millicom has started operating in two new markets, launching operations in Chad in October and purchasing the Oasis business in Congo. Together these two countries add some 70 million new people under license, replacing the potential new subscribers lost with the end of our BCC in Vietnam."

"Millicom is currently negotiating the sale of its share in Pakcom, its second operation in Pakistan. It is interesting to note that Millicom's growth would have been even higher without Pakcom. Millicom has decided to concentrate its investment in Pakistan into its Paktel business and in total, since 2002, Millicom has committed \$250 million of investment, excluding the license fee. Paktel is growing strongly and by the end of the quarter the business had 945,000 subscribers."

FINANCIAL AND OPERATING SUMMARY

N.B.: Pro forma numbers for current and previous quarters exclude Millicom's operation in Vietnam, where the BCC ended on May 18, 2005 and include Millicom's joint venture in Honduras with a percentage ownership of 66.67%, to reflect the increase in ownership from 50% to 66.67% in May 2005.

COMMENTS ON FINANCIAL STATEMENTS

For the third quarter of 2005, the increase in the market price of the Tele2 shares resulted in a valuation movement of \$21.4 million. This gain was mainly offset by the conversion to the US dollar of the 5%

mandatory exchangeable Notes in Tele2 shares ('the 5% Notes') resulting in an exchange loss of \$2.7 million and the valuation of the embedded derivative on the 5% Notes resulting in a fair value loss of \$19.0 million.

As Millicom is currently negotiating the sale of Pakcom, all assets and liabilities line items relating to Pakcom are grouped respectively under the caption assets held for sale and liabilities directly associated with assets held for sale.
