

INTERIM REPORT

JANUARY - SEPTEMBER 2005

CONTINUED FAVORABLE GROWTH FOR THE TRELLEBORG GROUP

During the third quarter of 2005, the Trelleborg industrial Group increased its net sales to SEK 5,846 M (5,460). Organic growth was approximately 4 percent. Operating profit rose to SEK 425 M (383). For the third quarter, all five business areas reported increased net sales and improved operating profits.

During the third quarter, net sales rose to SEK 5,846 (5 460), and during the period January – September to SEK 17 988 M (17 383).

Profit after tax:	Third quarter:	January - September:
 Continuing operations 	SEK 284 M (233)	SEK 884 M (788)
 Divested operations 	SEK M ()	SEK M (656)
 Total profit for the period 	SEK 284 M (233)	SEK 884 M (1 444)

- Earnings per share for the third quarter amounted to SEK 3.10 (2.55) and to SEK 9.70 (16.30) for the period January September.
- Key operating ratios for continuing operations, excluding restructuring costs and impairment losses:

 Third quarter: January September:

103	3003.	Thilu quarter.	January - September.
•	Operating profit	SEK 425 M (389)	SEK 1,370 M (1,379)
•	Profit before tax	SEK 392 M (317)	SEK 1,217 M (1,150)
•	Profit for the period	SEK 284 M (238)	SEK 884 M (838)
•	Earnings per share	SEK 3.10 (2.65)	SEK 9.70 (9.40)

- Peter Nilsson was appointed as the new President and CEO of the Trelleborg Group effective October 1, 2005. CFO Bo Jacobsson has been appointed First Executive Vice President of the Group. Lennart Johansson has been appointed the new Business Area President for Trelleborg Engineered Systems.
- Following the close of the period, an agreement was signed regarding the acquisition of the operations of Chase-Walton Elastomers Inc., with annual sales of approximately SEK 100 M and about 110 employees in Hudson, Massachusetts. The company manufactures precision seals, primarily for the aerospace industry.
- The focus on growth in Asia has been further strengthened and several initiatives have been taken to increase presence and production capacity. The construction of Trelleborg's new plant in Shanghai, China has begun. At the same time, production capacity is also being extended in India and Sri Lanka.
- As a consequence of successful efforts during the year to focus Trelleborg as a streamlined industrial group with the business concept of damping, sealing and protecting in demanding industrial environments, Morgan Stanley Capital International (MSCI) has reclassified Trelleborg as belonging to the "Industrial" sector.

Effective 2005, Trelleborg applies The European Commission approved International Financial Reporting Standards (IFRS). Comparative figures have been restated from January 1, 2004. This interim report is the first financial report to be presented in accordance with IFRS. See pages 17-18 for more detailed information.

GROUP

Net sales, profit and earnings per share

Third quarter

Net sales for the Trelleborg Group during the third quarter of 2005 amounted to SEK 5,846 M (5,460). Organic growth was 4 percent. All five of Trelleborg's business areas increased their net sales and reported improved operating profits.

Consolidated operating profit amounted to SEK 425 M (383). Profit before tax amounted to SEK 392 M (311). Net profit was SEK 284 M (233), while earnings per share were SEK 3.10 (2.55). Net financial items included SEK 19 M from a gain on a closed interest-rate swap during the quarter.

For continuing operations, excluding restructuring costs and impairment losses, operating profit amounted to SEK 425 M (389). Profit before tax was SEK 392 M (317) and net profit was SEK 284 M (238). Earnings per share were SEK 3.10 (2.65).

²⁾ Net cash flow excluding acquisitions and disposals after tax and cash flow related to shareholders

³⁾ Based on rolling 12-months values

⁴⁾ Operating cash flow related to the average number of shares outstanding

Period January - September

Net sales for the Trelleborg Group during the period January - September 2005 amounted to SEK 17,988 M (17,383). Organic growth was slightly more than 3 percent.

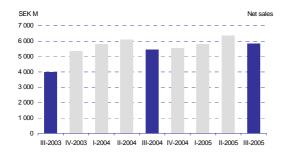

Consolidated operating profit amounted to SEK 1,370 M (1,957). Profit before tax amounted to SEK 1,217 M (1,728). Net profit was SEK 884 M (1,444), while earnings per share were SEK 9.70 (16.30). Profit for the period January - September 2004 included capital gains and the participation in the profit of Trenor of SEK 656 M.

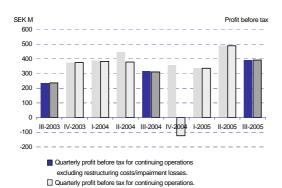

For continuing operations, excluding restructuring costs and impairment losses, operating profit amounted to SEK 1,370 M (1,379). Earnings before tax amounted to SEK 1,217 M (1,150), while net profit amounted to SEK 884 M (838). Earnings per share were SEK 9.70 (9.40). The consolidated operating margin (rolling 12 months) amounted to 7.5 percent (7.9).

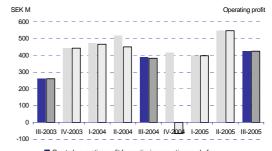

Balance sheet, cash flow and investments for January - September 2005

Consolidated operating cash flow for the period January - September improved to SEK 1,261 M (1,116), primarily due to a lower level of investments and more efficient handling of working capital. The level of investment was SEK 627 M (725). At the end of the period, consolidated capital employed was SEK 16,552 M (15,877). The increase was entirely attributable to exchange-rate effects. Net financial debt amounted to SEK 7,159 M (7,259). The debt-equity ratio at the end of the period amounted to 73 percent (82) and the equity-assets ratio was 40.3 percent (38.2). At the end of the period, shareholders' equity per share (net 90.4 million outstanding) amounted to SEK 106.50 (97.15). Return on shareholders' equity was 12.9 percent (23.6).

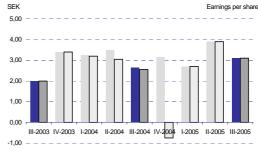

The application of IAS 39, Financial Instruments, increased current assets by SEK 19 M as per January 1, 2005. Shareholders' equity increased by SEK 14 M, net after tax.

- Quarterly earnings per share for continuing operations excluding restructuring costs/impairment losses.
- Quarterly earnings per share for continuing operations.

OTHER

Peter Nilsson new President and Chief Executive Officer of Trelleborg AB

The Board of Trelleborg AB has appointed **Peter Nilsson**, President of the Trelleborg Engineered Systems business area, as new President and CEO of the Trelleborg Group. Peter Nilsson took up his new duties on October 1, 2005.

Peter Nilsson, who is 39 years old and has an M. Sc Eng. degree, has been with the Group since 1995, working in two business areas and in various positions with overall responsibility for operations in Europe, North America and Asia. Since 2003, Peter Nilsson has been a member of Group management.

In connection with Peter Nilsson's appointment as President, CFO **Bo Jacobsson** was also appointed First Executive Vice President of the Trelleborg Group. George Caplea, President of the Trelleborg Automotive business area continues as Executive Vice President.

Lennart Johansson has been appointed the new President of the Trelleborg Engineered Systems business area. Lennart Johansson is 45 years old, has a Master of Science degree and has worked within the Kemira Group since 1998. He is currently the President and Business Area Manager for Kemira Kemwater, the President of Kemira AB and a member of Kemira's Group Management. Lennart Johansson will begin his new assignment on November 1, 2005.

Acquisitions

Through the Trelleborg Wheel Systems business area, Trelleborg has acquired the French company Cimap Roues Industrielles SAS, which has sales of approximately SEK 40 M and holds a leading position in industrial tires in France.

Following the close of the period, an agreement was signed regarding the acquisition of the operations of Chase-Walton Elastomers Inc., with annual sales of approximately SEK 100 M and about 110 employees at two production units in Hudson, Massachusetts, in the US. Chase-Walton Elastomers designs, develops and manufactures polymer components in silicone, primarily for the aerospace, medical technology and biotech industries. The formal takeover of the business is estimated to become effective on October 27, 2005. The acquired operations will be integrated fully within Trelleborg Sealing Solutions' operations.

Reclassification of Trelleborg by MSCI

As a consequence of the successful process of focusing Trelleborg as a streamlined industrial group with the business concept of damping, sealing and protecting in demanding industrial environments, Morgan Stanley Capital International (MSCI) has reclassified Trelleborg as belonging to the 20106020 "Machinery" sector. Trelleborg AB was previously classified under sector 25101020 "Tires and Rubber." The classification follows the Global Industry Classification Standard (GICS), the sector standard used by all of the Nordic stock exchanges. Trelleborg will remain in the Stockholm Stock Exchange's All-share and Benchmark indexes. The reclassification means that Trelleborg is included in the following sector indexes of the Stockholm Stock Exchange, effective September 15:

Sector SX20PI Industrials (previously 25 Consumer Discretionary)
Industry Group SX2010PI Capital Goods (previously 2510 Automobiles and Components)
Industry SX251060PI Industrial Machinery (previously 251010 Auto Components)

Nominations Committee

At Trelleborg AB's Annual General Meeting on April 26, 2005, the Chairman of the Board was assigned the task of asking five representatives for the Company's largest shareholders to form a Nominations Committee that shall prepare proposals regarding Board members to be presented to the 2006 Annual General Meeting for resolution. The following persons have been asked to participate in the Nominations Committee and have agreed: Didrik Normark, Henry and Gerda Dunkers Foundation, Mats Lagerqvist, Robur, Ramsay Brufer, Alecta, Torsten Johansson, Handelsbanken Fonder and Lars Öhrstedt, AFA/TFA.

PARENT COMPANY

Effective January 1, 2005, the Parent Company applies recommendation RR32 of the Swedish Financial Accounting Standards Council. The opening balance of shareholders' equity rose by SEK 191 M.

Profit before tax for Trelleborg AB, the Parent Company of the Trelleborg Group, for the period January – September amounted to SEK 302 M (109). There were no sales. Investments amounted to SEK 8 M (1). The average number of employees was 79 (73).

OUTLOOK

For the fourth quarter, growth is expected to remain favorable in aerospace and oil/gas, but is expected to level off in the agricultural and transport sectors. In other industries, demand is expected to vary between sectors. In construction and infrastructure-related sectors, demand is also expected to vary between different geographical sub-markets, with favorable demand expected in Scandinavia. In the automotive industry, a weakly negative trend is expected in Trelleborg's principal markets. Trelleborg is expected to be able to develop at the same level as its underlying markets or somewhat better.

For the full year, the Trelleborg Group's profits, after tax and for continuing units, excluding restructuring costs, are expected to be in line with 2004.

An increase in prices for polymer-based raw materials is expected to have a renewed impact, beginning in the fourth quarter of 2005. This is assessed to have a certain negative effect within Trelleborg Automotive. The other business areas are expected to be able to offset the effect. The price level for steel-related raw materials is expected to level off in 2006 at a somewhat lower average level than in 2005. Efficiency-improvement measures, price adjustments and intensified and active procurement work remains a priority in offsetting the negative effects of a higher cost level for raw materials.

Extensive efforts and market initiatives are being undertaken to increase growth in selected product segments and bolster expansion in prioritized geographical markets.

Trelleborg, October 26, 2005 Peter Nilsson President

This interim report has been prepared in accordance with IAS 34 Interim Reports. The accounting principles applied in the preparation of this report are described in the Trelleborg Group's Annual Report as applicable and in the section on the transition to reporting in accordance with IFRS on pages 17 to 18 of this report. The report has not been subject to special review by the Company's auditors. The data on which the diagrams in this report are based are available in Excel format under "Financial information" at www.trelleborg.com.

Invitation to telephone conference, October 26 at 10:00 CET

A telephone conference will be held on October 26 at 10:00 CET. Call +44 20 71 62 01 83 and state the password "Trelleborg." Presentation materials will be available at www.trelleborg.com from about 30 minutes prior to the commencement of the conference. The conference will be recorded and will be available for five days following the conference on tel. +44 207-031 40 64, code 679282.

¹⁾ Based on rolling 12-months values

Favorable sales trend in North America

During the third quarter of 2005, car production in North America was at the same level as in 2004 and for the period January-September, the decline was slightly less than 2 percent. Inventory levels in North America continued to decline during the quarter. In Europe, production during the third quarter declined by slightly less than 4 percent, with a more substantial decline in Western Europe. For the period January-September, the decline was slightly more than 1 percent. (*Source: JP Powers/Trelleborg*). Recent concern within the North American automotive industry is currently expected to have a limited effect on Trelleborg. The accounts receivable exposure in relation to Delphi is marginal.

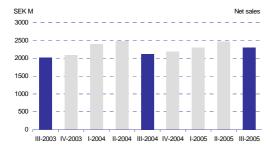

In comparable currencies/units, the business area's sales during the period January-September were at the same level as in 2004. During the third quarter, sales in comparable currencies/units rose by 3 percent.

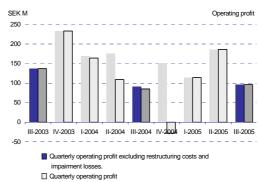

During the third quarter, Trelleborg Automotive had continued favorable sales growth in North America, where the business area has captured market shares and developed better than the underlying market. In Europe reduced volumes and mix have affected earnings.

Net capitalized development costs after amortization within Trelleborg Automotive amounted to SEK 36 M (36), and for the period January-September, to SEK 90 M (87).

The business area's strong global technology platform in its antivibration operations continues to generate favorable order bookings, bolster the business area's strong position as supplier to the automotive industry's globally developed platforms.

Both in North America and Europe, favorable productivity, successful efficiency improvements and the rationalization of operations have partly offset price increases for raw materials. The negative impact of price increases for raw materials was reduced compared with the first six months of 2005. A rise in prices for polymer-based raw materials is expected to have a renewed impact beginning during the fourth quarter of 2005.

Trelleborg Sealing Solutions

	July - Sep		Jan -	Sep	Oct 2004 -	Full year
SEK M	2005	2004	2005	2004	Sep 2005	2004

Operating cash flow	194	167	411	440	550	579

¹⁾ Based on rolling 12-months values

Favorable growth in prioritized industrial segments

In prioritized industrial segments, the sales trend for Trelleborg Sealing Solutions remained favorable during the third quarter, while sales to the automotive industry in North America and Western Europe declined, partly as a consequence of the business area's strategy of continued focus on selected niche areas. In comparable currencies/units, sales rose by 1 percent during the period January-September.

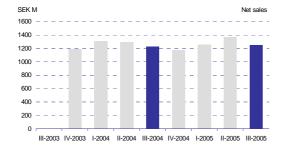

The positive sales trend in prioritized segments has resulted in an improved operating margin.

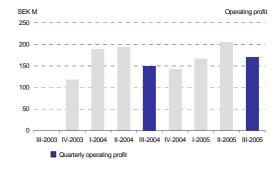

During the third quarter, Trelleborg Sealing Solutions continued to strengthen its presence in strategic segments and geographic areas with the rapid build-out of the marketing and distribution organization in North America and Asia. In Europe too, activities are under way to further strengthen delivery reliability through continued development and improvement of the business area's entire supply chain.

Construction began of the new plant in Shanghai, China. The plant will increase production capacity for high-quality precision seals in materials including PTFE (a low-friction material) and will facilitate further expansion in Asia through increased service to new and existing customers in the region. The unit will also house a technical center and a sales office. Production is expected to commence during the first half of 2006. Initially, the plant is expected to employ approximately 200 people.

The integration of Rollon Hydraulics Pvt in Bangalore, India, has been completed and operations are developing favorably.

Following the close of the period, an agreement was signed regarding the acquisition of the operations of Chase-Walton Elastomers Inc., with annual sales of approximately SEK 100 M and about 110 employees at two production units in Hudson, Massachusetts, in the US. Chase-Walton Elastomers designs, develops and manufactures polymer components in silicone, primarily for the aerospace, medical technology and biotech industries. The acquired operations will be integrated fully within Trelleborg Sealing Solutions existing global operations. The formal takeover of the business is estimated to become effective on October 27, 2005.

Positive sales and profit trend

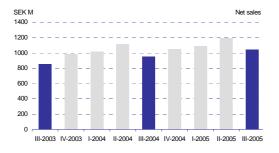

Trelleborg Engineered Systems experienced ongoing strong demand in most product segments during the third quarter of 2005. In comparable currencies/units, sales by the business area during the period January - September were up by slightly more than 7 percent on the preceding year.

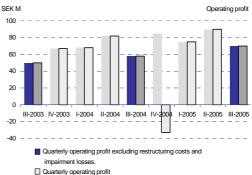

The continued strong focus on selected segments with favorable profitability in Industrial Fluid Systems contributed positively to profits, as did strong sales in project-related operations.

During the quarter, the business area secured several major orders for project deliveries in the area of oil/gas. An international breakthrough that opens up new opportunities has occurred with the first major order for the unique Trelline® pipe system for oil projects in deep-water environments, developed by Trelleborg. The system will be used for connection to an FPSO (Floating Production, Storage and Offshore Loading – floating oil tanker). The unique pipe system is the first of its kind for demanding deep-water environments. The value of this initial order is estimated at approximately SEK 100 M. Delivery will take place during 2006.

Trelleborg has signed a four-year framework agreement with Canadian Natural Resources, CNR International (UK) Limited, regarding the upgrading of solutions for fire safety and sealing on all CNR platforms in the North Sea. The framework agreement includes ElastopipeTM, a polymer-based sprinkler system with unique patented characteristics able to withstand extreme temperatures, explosions and corrosion.

Lennart Johansson has been appointed to succeed Peter Nilsson as President of the Trelleborg Engineered Systems business area and will assume this position on November 1, 2005. Lennart Johansson is 45 years old, has a Master of Science degree and has worked within the Kemira Group since 1998. He is currently the President and Business Area Manager for Kemira Kemwater, the President of Kemira AB and a member of Kemira's Group Management.

¹⁾ Based on rolling 12-months values

Continued strong growth in sales and earnings

Trelleborg Wheel Systems experienced a continued strong trend in both agricultural and industrial tires during the third quarter. During the period January-September 2005, sales in comparable currencies/units rose by 12 percent compared with 2004.

Operating profit for the period rose by slightly more than 40 percent compared with the year-earlier period, a consequence of increased sales volumes, new OEM customers, favorable product mix and high utilization of capacity. Price hikes offset increased costs for raw materials.

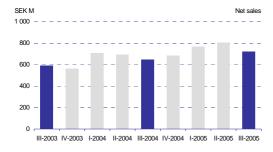

The market for agricultural tires in Europe was stable, although with certain tendencies towards decreased demand compared with 2004. The business area has continued to capture market shares.

The market for industrial tires has continued to expand in North America and Asia, while in Europe certain tendencies towards stabilization can be discerned. Improved production capacity at the business area's plant in Sri Lanka is boosting the opportunities for growth in the business area's development markets, that is, markets outside Western Europe and North America.

The French company Cimap Roues Industrielles SAS, part of the family-owned CIMAP Group, was acquired during the period. Since 1999, Cimap Roues Industrielles, which holds a leading position in industrial tires in France, has been a distributor of Trelleborg's industrial tires. The company has sales of approximately SEK 40 M and about ten employees at its head offices in Paris and a central warehouse in Bordeaux.

Through this acquisition, Trelleborg Wheel Systems strengthens its position in the important after-market for industrial tires in France. Cimap Roues Industrielles will be integrated fully with the business area's current organization in industrial tires in France.

The closure and transfer of tire production from the facility in the town of Trelleborg is proceeding according to plan.

¹⁾ Based on rolling 12-months values

Favorable sales in Waterproofing

Demand in the Scandinavian construction market remained strong in the third quarter of 2005.

In comparable currencies/units, sales by Trelleborg Building Systems in the period January - September 2005 were up by approximately 3 percent on the preceding year.

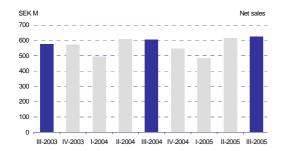

The business area's cash flow during the quarter was favorable, partly as a consequence of beneficial effects of the ongoing capital-rationalization project.

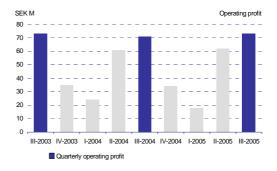

Strong sales in Waterproofing, with favorable growth and new customers, primarily in roofing operations in Denmark, affected profits positively. An improved production structure also contributed favorably to profits.

Increased competition in the building-supplies market is being met with continued development of new distribution channels and focus on new, innovative products that offer greater value added for customers.

As a consequence of successful market activities, the sales trend in the Pipe Seals segment has been highly favorable. Profits were affected positively by increased efficiency and an improved cost structure resulting from the structural changes of the past year. On October 1, the operations of the small Swedish company VA Forum were acquired, with sales of approximately SEK 5 M and operations in the Swedish after-market for pipe seals.

In Sealing Profiles, highly refined products offering favorable profitability continue to be given gradually increased priority. In line with this, the business area has chosen to decline orders offering unacceptably low margins, which has had a negative affect on growth and profits.

Transition to reporting in accordance with IFRS (International Financial Reporting Standards)

Effective January 1, 2005, the Trelleborg Group reports in accordance with European Commission approved International Financial Reporting Standards (IFRS). The transition is accounted for in accordance with IFRS 1 "First-time Adoption of International Financial Reporting Standards," which stipulates that the comparative year 2004 shall also be reported in accordance with IFRS, with the exception of IAS 39 Financial Instruments: Recognition and Measurement, which is reported from January 1, 2005.

The primary changes for the Trelleborg Group are the adjustments to IFRS 3 Business Combinations and IAS 39 Financial Instruments: Recognition and Measurement. The tables below show shareholders' equity and net profit in accordance with IFRS and the effect of IAS 39 on the opening balance of shareholders' equity at January 1, 2005.

IFRS 1 - First-time adoption of IFRS

The standard contains transitional rules for the introduction of IFRS. The guiding principle is that European Commission approved IFRS shall be applied retroactively, subject to certain exceptions:

- IFRS 3 Business Combinations shall be applied from January 1, 2004.
- IAS 39 shall be applied from January 1, 2005.

The Trelleborg Group reports in accordance with the above permitted exceptions.

IFRS 3 - Business Combinations

IFRS 3 stipulates that goodwill and other intangible assets with an indefinite useful life are no longer amortized but, instead, impairment-loss testing is conducted on an annual basis, or more frequently if there is an indication of impairment. The Trelleborg Group conducted impairment-loss testing in the fourth quarter of 2004 to determine the value of goodwill. This testing did not indicate any impairment losses. In conjunction with the transition to IFRS, goodwill amortization was reversed in an amount of SEK 300 M for

the period January - September 2004 and in an amount of SEK 403 M for the full year 2004. Impairment-loss testing will be conducted annually during the fourth quarter or whenever there is any indication of impairment.

IFRS 3 also entails changes in the rules for allocating the cost of an acquisition between goodwill and other intangible fixed assets. Only minor acquisitions were made in 2004 and an analysis by the Group shows that the intangible assets pertained to goodwill.

Restructuring reserves that have affected the calculation of goodwill are not permitted. An adjustment has been made for the restructuring reserves that affected the goodwill amount for acquisitions made in 2004. This adjustment amounted to SEK 18 M for the period January - September 2004 and SEK 24 M for the full year 2004.

IAS 39 - Financial Instruments: Recognition and Measurement

The Trelleborg Group applies hedge accounting for financial instruments with the purpose of hedging the following financial risks:

- Transaction exposure: hedging of forecast and contracted external commercial currency flows.
- Interest-rate risk: interest-rate derivatives secured to ensure the desired rate of interest on the Group's net
- Translation exposure in the balance sheet: hedging of net assets in foreign currencies.

The market value of all derivatives is assessed on an ongoing basis. Changes in the market value of the above financial instruments are reported in the balance sheet as shareholders' equity in cases where hedge effectiveness is presumed to exist.

The Group has foreign exchange forwards that aim to hedge inter-company commercial currency flows. These foreign exchange forwards are valued at market (fair) value and changes in fair value affect the income statement since IAS 39 does not presently permit hedge accounting for the hedging of inter-company currency flows.

The Group assess that embedded derivatives do not exist.

The application of IAS 39 has increased the opening balance of shareholders' equity at January 1, 2005 by SEK 14 M, net after tax.
