## protect data

## Interim report January 1 - September 30, 2005

## Pointsec - the de facto

 security standard for mobile devices and PCs

## Pointsec sales increase for fifth consecutive quarter

## THIRD QUARTER

- Sales for the quarter increased to SEK 61.3 M (53.1). Excluding divested operations, sales increased 21\% from SEK 50.6 M.
- Sales of Pointsec products increased for the fifth consecutive quarter and amounted to SEK 51.4 M , which was an increase of $37 \%$, compared with the corresponding quarter in the preceding year.
- Operating profit amounted to SEK 9.7 M (4.8).

## REPORT PERIOD FROM JANUARY TO SEPTEMBER

- Sales during the period increased by $24 \%$ to SEK 192.7 M (155.6).
- Operating profit amounted to SEK 31.9 M (17.6).
- Profit after net financial items amounted to SEK 34.5 M (20.4).
- Profit after tax amounted to SEK 22.1 M (13.6).
- Profit per share amounted to SEK 2.00 (1.29).
- Changed outlook - sharp increase in profit.

## CEO Thomas Bill's comments:

"The third quarter was the best-ever, although by a small margin, with respect to sales of Pointsec's security solution. This was despite a third quarter that is normally a seasonally weak quarter. Sales of Pointsec products amounted to SEK 51.4 M during the quarter, an increase of $37 \%$, compared with the corresponding quarter last year.
The composition of sales also showed strength. The increase in sales consisted of a large number of orders. In addition, the spread was favorable from a geographic perspective. We also noted that our efforts in the US market continued to produce returns. This important market accounted
for slightly more than $40 \%$ of Pointsec sales. Business in Japan also continued to show strong growth. The newly started operations in the Middle East and India are developing surprisingly favorably. In addition, the first orders for Pointsec were received from Brazil and Taiwan via local partners.
The European market, on the other hand, showed a somewhat weaker trend than anticipated. However, two important contracts were signed with major European banks during the quarter.

Other important contracts signed during the quarter included a couple of orders
from US authorities that we regard as important endorsements of quality. Sales continued to develop favorably in the financial sector, where important orders were received in the US and Europe.
Against the background of our performance thus far this year, we are adjusting the wording of the outlook for the full year to read that the company will report a 'sharp' increase in profits. This may be compared with the previous earnings forecast, which was that 'the Group's earnings are expected to improve over the preceding year'."

## SALES AND PROFIT

Consolidated sales increased by $21 \%$, excluding divested operations, and amounted to SEK 61.3 M (50.6) for the period.
A sales record was noted for Pointsec during the third quarter. This meant that Pointsec sales for the first nine months of the year amounted to SEK 152.1 M, thus exceeding last year's sales, which totaled SEK 149.5 M.
Pointsec accounted for SEK 51.4 M (37.7) of total sales during the third quarter, while the remainder (SEK 9.9 M ) consisted of third-party products.
Third-party products are only sold in the Nordic region, and the relatively weak sales trend during the quarter was primarily attributable to seasonal variations.
New sales of the Company's proprietary security solution corresponded to $68 \%$ of total Pointsec sales, while the remaining $32 \%$ consisted of recurring revenues.
With respect to the geographic distribution of sales, which is shown in the table below, the US market accounted for an increasing share.
Gross profit for the quarter amounted to SEK 55.7 M (42.2), corresponding to a gross margin of $91 \%$ (80). The increase was due to a greater proportion of Pointsec sales.

Pointsec revenues divided into new sales and recurring revenues

Operating profit increased sharply during the third quarter and amounted to SEK 9.7 M, which was $102 \%$ higher than in the year-earlier quarter.
Increasingly strong sales resulting in rising commissions was a contributing factor in the $29 \%$ increase in overhead costs, which totaled SEK 47.3 M (36.6). The increase in costs was also attributable to an increase in personnel.
A credit loss in the Netherlands of SEK 0.6 M was charged against earnings.

As a result of the summer vacation
months, capitalization of development costs during the third quarter declined in relation to the second quarter, thus impacting earnings.

Realized and unrealized translation differences reduced operating income by SEK $0.2 \mathrm{M}(0.8)$.

During the quarter, a settlement was reached with a group of former employees resulting in a positive effect of SEK 1.5 M on earnings.

Costs for warrants allocated free of charge amounting to SEK 0.6 M were charged against earnings in accordance with IFRS 2. During previous quarters, this cost was erroneously reported under net financial items. This error has now been corrected.

The net of financial items for the quarter amounted to income of SEK 0.3 M (0.2).

Unrealized surplus values in financial investments were booked directly against shareholders' equity in accordance with IAS 39 and thus did not affect net financial items. Unrealized surplus values amounted to SEK $4.7 \mathrm{M}(0.2)$ on the opening date. During the quarter, the growth in value was SEK 1.5 M .

Profit after net financial items increased by $100 \%$ to SEK 10.0 M (5.0) during the third quarter, compared with the same period in 2004.

## LIQUIDITY AND FINANCIAL POSITION

The Group's financial position remains very strong.

On the closing date, liquidity (liquid funds and current investments), including unutilized credit facilities of SEK 50 M (50) and unrealized surplus values in fund investments of SEK 4.7 M (0.2), amounted to SEK 211 M (166). Expressed as current assets as a percentage of current liabilities, liquidity amounted to $322 \%$ (326\%).
Equity amounted to SEK 199 M (147) on the closing date, corresponding to an equity/assets ratio of $69 \%$ (69\%) and equity per share of SEK 17.81 (13.84).
Goodwill amounted to SEK 5.9 M (7.0) on the closing date. Capitalized expenses for software development plus acquired intangible assets totaled SEK 25.0 M (26.8).

## INVESTMENTS

The Group's investments in equipment during the nine-month period amounted to SEK 1.6 M (2.4), of which the Parent Company's investments accounted for SEK $0.3 \mathrm{M}(0.4)$.
Investments in capitalized expenses for development of commercial software during the period amounted to SEK 10.6 M (8.3).

## OPERATIONS

Sales of Protect Data's proprietary security software Pointsec continued to develop favorably during the quarter and increased for the fifth consecutive quarter. Pointsec sales of SEK 51.4 M were thus the highest achieved to date. Of these sales, SEK 34.8 M was attributable to new sales, while SEK 16.6 M consisted of recurring revenues. The composition of sales was a strength, since there was a larger number of orders, rather than a few large orders.
Sales were also well-balanced from a geographic perspective. Increased marketing efforts and the strengthened local

The Group's total revenues from Pointsec operations summed on a rolling basis over the most recent four quarters
presence in the US market produced results. Currently, sales in this region account for slightly more than $40 \%$ of total Pointsec sales. During the quarter, two important and prestigious orders were received from US authorities. Demand also remained strong in the financial sector in the US.

Sales also developed favorably in Asia and the Middle East. This included favorable sales in the Japanese financial sector. Sales in India also picked up and included order from two major Indian IT companies in the outsourcing sector.

The European market, on the other hand, showed a somewhat weaker trend than anticipated. However, two important contracts were signed with major European banks during the quarter.
Partnerships were entered during the quarter with local representatives in Israel, Brazil and Taiwan.
After the closing date, a partnership agreement was signed with a local representative in Iceland.

During the quarter, deliveries began of Pointsec for Linux. Accordingly, Pointsec is available for an additional platform and new customer categories.

Group sales by geographic market

EMEA (Europe, Middle East, Africa) APAC (Asia, Pacific area countries) USA

Total Group revenues, Jan-Sep 2005

The focus on a limited portfolio of third-party products in the Nordic market continued to prove strategically correct.

The sale of traditional identification systems, primarily to the banking sector, continued to develop favorably.

The company's CFO Ulla Ek resigned during the third quarter. Her successor is expected to be announced during the fourth quarter.

## PARENT COMPANY

The Parent Company's sales during the nine-month period amounted to SEK 13.9 M (14.4), of which SEK 13.7 M (14.3) derived from sales to Group companies. The Parent Company's cash flow for the period amounted to SEK 3.2 M (26.5).

## OUTLOOK

Given the strong results for the quarter, our opinion regarding the anticipated profit for the year has been adjusted. Sales of Pointsec are expected to continue developing positively, and the Group's profit will improve sharply over the preceding year. This is an adjustment
of the previous forecast which was that "the Group's earnings are expected to improve over the preceding year."

## ACCOUNTING PRINCIPLES

This interim report was prepared in accordance with IAS 34, Interim Financial Reporting, which is in compliance with the Swedish Financial Accounting Standards Council's recommendation RR 31, Consolidated interim reports. The accounting principles applied in this interim report are those described in the consolidated accounts for 2004, Note 1. As explained there, International Financial Reporting Standards (IFRS) are applied as of 2005 and comparison figures referring to 2004 were recalculated in accordance with the new principles.

For Protect Data, there have been no exceptions to the above. All changes were recalculated with respect to 2004 . The effects on equity for the comparison periods of the recalculation to comply with the new principles are specified in the interim report in the table "Specification of change in equity." The effects on profit after tax for the comparison periods are specified in the table "Condensed consolidated income statements."

## NOMINATION COMMITTEE

The Nomination Committee, which will submit proposals for members of the Board of Directors to the 2006 Annual General Meeting, consists of Magnus Bakke, Chairman, (representing Robur Funds), Carl Rosvall (representing

Monterro Holding Ltd.) and Fredrik Nilert (representing AFA Insurance). These persons represent slightly more than one third of the company's capital and voting rights.

Shareholders who wish to submit proposals to the Nomination Committee may send e-mail to the address: valberedning@protectdata.com.

The Nomination Committee has noted that an Election Committee has been established in the company. The Election Committee will discuss issues and submit proposals in matters that involve the Nomination Committee's mandate. The committee will therefore withdraw in favor of the Election Committee.

## AUDITOR'S REVIEW

We have reviewed this interim report in accordance with the recommendation issued by FAR, the Institute for the Accounting Profession in Sweden. A review is considerably limited in scope, compared with an audit. Nothing has come to our attention that causes us to believe that the interim report does not comply with the requirements of the Exchange and Clearing Operations Act (börslagen) and the Annual Accounts Act.

Stockholm, October 27, 2005
