

Symsoft AB Delivers to Saudi Telecom

Symsoft's local office in the Middle East, Dubai, has achieved a very important milestone by signing a contract to deliver key elements to Saudi Telecom's prepaid business operations. STC is the leading operator in the Kingdom of Saudi Arabia.

"Saudi Arabia is a growing prepaid market with changing customer expectations. We must provide reliable services to our mobile end-users. By using the Voucher Management System from Symsoft, security, flexibility and scalability for capacity is warranted. This gives support to our business operations", says Mohammed Al Ageel, General Manager of IT, Aljawal Saudi Telecom.

"A well known and respected operator as Saudi Telecom, in a market with a great growth potential, is a strategic business for Symsoft. We are very delighted to start this relationship and have a strong commitment to make a success out of this deployment", says Bogdan Sacuiu, General Manager of Symsoft Middle East and Africa.

"Symsoft AB aims to be the leader of modern charging solutions to mobile operators. The contract with STC is a very important achievement for Symsoft in our strategy to open up local offices closer to important customers", says Kurt Hellström, Symsoft's Chairman of the Board.
