Telelogic Signs 938,000 EUR Agreement with Leading Aerospace/Defense Manufacturer

-Leading aerospace/defense manufacturers to give systems and software engineers complete access to Telelogic DOORS® through upgrade and extension of existing agreement.-

MALMÖ, Sweden - February 9, 2006 - Telelogic (Stockholm Exchange: TLOG), the leading provider of software solutions that align advanced systems and software development with business objectives, today announced that it has signed a four year, 938,000 EUR multi-site upgrade license and maintenance agreement with a leading aerospace/defense manufacturer, headquartered in Europe.

The four year deal will see approximately 450 engineers over multiple locations gain access to Telelogic's requirements management solution Telelogic DOORS. Already using Telelogic DOORS in single site locations, the company recognized the capabilities within the solution that ensured their projects are completed on time, within budget, and with all features and functionality originally specified. Therefore, the company will now roll out Telelogic DOORS across all the companies' locations in central Europe.

"Telelogic is very pleased to have received this vote of confidence in our market leading requirements management solution" said Anders Lidbeck, President and CEO of Telelogic. "The customer's decision to work with Telelogic to continually improve their development and business processes is a vindication of our strong market position."

About Telelogic

Telelogic® is a leading global provider of solutions for automating and supporting best practices across the enterprise – from powerful modeling of business processes and enterprise architectures to requirements-driven development of advanced systems and software. Telelogic's solutions enable organizations to align product, systems, and software development lifecycles with business objectives and customer needs to dramatically improve quality and predictability, while significantly reducing time-to-market and overall costs.

To better enable our customers' drive towards an automated lifecycle process, Telelogic supports an open architecture and the use of standardized languages. As an industry leader and technology visionary, Telelogic is actively involved in shaping the future of enterprise architecture, application lifecycle management, and customer needs management by participating in industry organizations such as INCOSE, OMG, The Open Group, AUTOSAR, Eclipse, ETSI, ITU-T, and the TeleManagement Forum.

Headquartered in Malmö, Sweden with U.S. headquarters in Irvine, California, Telelogic has operations in 20 countries worldwide. Customers include Airbus, Alcatel, BAE SYSTEMS, BMW, Boeing, DaimlerChrysler, Deutsche Bank, Ericsson, General Electric, General Motors, Lockheed Martin, Motorola, NEC, Philips, Samsung, Siemens, Sprint, Thales, and Vodafone.
