About Artimplant

Artimplant is a biomaterials company focused on solutions to problems in orthopedic, odontological and reconstructive surgery. The Company is engaged in the development, production and marketing of degradable implants designed to restore active lifestyles and improve quality of life. The proprietary technology Artelon®, a long-term degradable biomaterial, offers new solutions to unmet clinical needs and opens new markets. Artimplant's business model is that of licensing its products and technology to global partners. The Company currently has six licensing agreements and one distribution agreement with three global partners. Artimplant is a public company, listed on the Stockholm Stock Exchange, O-list.
