FOURTH QUARTER 2005

Group turnover amounted to 396 MSEK (354), an increase of 12 %. All divisions except EP increased their turnover.

Incoming orders increased by 3 % to 383 MSEK (372).

Profits for the quarter before tax increased by 66 % to 33.6 MSEK (20.2). All divisions had improved profits on the previous year.

ANNUAL EARNINGS 2005

Turnover and profit

Group turnover increased by 8 % to 1,525 MSEK (1,406). Excluded sold-off units and acquired units increased turnover by 13 %.

Turnover outside Sweden increased by 12 %, amounting to 561 MSEK (500).

The order book value as of 31 December 2005 was 232 MSEK (260).

Continued high demand together with an improved product range means that many of the group's companies are showing excellent growth.

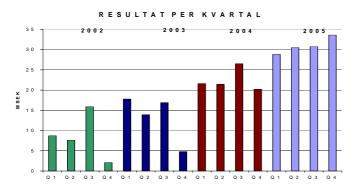

Profit before tax increased by 38 % to 124 MSEK (89.3). The improvement in profit is the result of the increase in turnover, improved efficiency and the disposal of non-profitable operations.

The profit has been burdened with the costs for the disposal of property amounting to 5.8 MSEK, and winding-up costs of 4.1 MSEK for activities in Italy and A Karlson Industriteknik AB.

AB Telfa were acquired as of 1 September 2005 and the company is active in Sweden in the field of pumps for marine, mobile and industrial applications.

The acquisition of AB Telfa brings a new product segment to the group.

The purchase price amounted to 10 MSEK, which also corresponds to the surplus value. These surplus value are divided into a 1.1 MSEK contribution margin on incoming orders and 8.8 MSEK to other intangible assets. Acquired assets and liabilities amounted to 15 and 14,9 MSEK on the date of acquisition. The company has been part of the OEM Group from 1 September 2005.

Profit for 2004 and 2005 has been calculated based on IFRS.

Turnover per market

Sweden 63 % (64), Finland 24 % (21), rest of Nordic region 7 % (7), outside Nordic region 6 % (8).

Cash flow

The cash flow from current operations was 77.4 MSEK (92.9).

Investments

Net investments in tangible fixed assets amounted to - 2.2 MSEK (-1.7) and in intangible fixed assets to 9.9 MSEK (-).

Liquidity

Liquid assets, consisting of cash and bank balances, including approved, but non-utilised bank overdraft facilities amounted to 399 MSEK (415) as of 31 December 2005.

Intangible assets

From 2005 inclusive, new accounting principles, International Financial Reporting Standards (IFRS), apply. This means that planned goodwill amortisation will not apply. On the other hand, goodwill items and other intangible assets will be examined for any write-down requirement. The profit has been burdened with goodwill write-downs of 0.9 MSEK (5.3). The book value in the balance sheet amounts to 18.2 MSEK as of 31 December 2005.

Equity/assets ratio

The equity/assets ratio as of 31 December 2005 amounted to 62.5 % (59.6).

Number of employees

The average number of employees in the group during the year was 541 (571).

Repurchase of shares

During the year the company did not repurchase any shares. The total number of own shares held as of 31 December amounted to 154,000 shares, which corresponds to 2 % of the total number of shares. The annual general meeting may authorise up to 10 % of the number of shares, which is 772,310.

Parent company

Net turnover was 34.9 MSEK (35.1) and the profit after financial items was 21.0 MSEK (-4.2).

Proposed dividend

A dividend of 7.00 SEK per share (5.50) is being proposed by the board.

Annual report

The annual report for 2005 will be distributed at the end of March 2006 and will be available from the head office or the company website.

Annual general meeting

The annual general meeting will be held in Tranås on 25 April 2006.

Date of next report

The interim report for the period January–March 2006 will be published on 25 April 2006.

Accounting principles

This consolidated interim report has been prepared in accordance with IAS 34 Interim Reporting. The accounting principles that applied for the most recent annual report have changed as a result of the application of the IAS ordinance. In accordance with the IAS ordinance, which was adopted by the EU in 2002, listed companies within the European Union must from 2005 onwards apply international accounting standards, IFRS, to their consolidated accounts. Thus, this interim report is the company's fourth financial report to have been prepared in accordance with the International Financial Reporting Standards, IFRS, adopted by the EU. In accordance with the transition regulations, the comparison year 2004 was reported according to the new accounting principles.

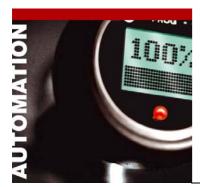

The company's annual report for the financial year 2004 included a description of which accounting principles would be affected by the transition to IFRS. For a description of the accounting principles applied by the company for the 2005 interim reports, see note 20 in the annual report for 2004.

From 2005 has leasing contract for cars changed from assets to liability in the balance sheet. Comparative year 2004 has been re-counted.

IAS 39, which deals with financial instruments, was applied from 1 January 2005 onwards with no requirement for recalculation of the comparison year. The transition to IAS 39 has not had any effect on equity.

TURNOVER AND RESULTS BY COMPANY GROUP

Components for industrial automation

- Turnover 605 (553) MSEK
- Operating profit 74.7 (67.1) MSEK

Continued high demand, increased coordination and a number of new product launches have allowed the group to increase its turnover by 9 % and the profit by 11 %. All activities except those in Denmark have experienced positive development during the year. Disposal of activities in Italy burdened the profit by 0.7 MSEK.

Appliance and circuit board components, EMC and microwave components

- Turnover 305 (285) MSEK
- Operating profit 24.7 (19.6) MSEK

Increased market shares mean that turnover increased by 7 % despite the loss of some customers and increased pressure on prices. The work on coordinating all activities into a single unit per country has improved efficiency, meaning that the profit increased by 26 %.

Ball bearings, seals, lubricating nipples, linear units, motors and transmissions

- Turnover 172 (194) MSEK
- Operating profit 5.1 (6.1) MSEK

Excluding the winding-up of A. Karlsson, turnover is on a par with the previous year, while the profit increased by 0.6 MSEK. Activities in the field of ball bearings have experienced positive development while other activities have not achieved acceptable profit.

Designs and manufactures hydraulic units and hydraulic systems

- Turnover 157 (139) MSEK
- Operating profit 11.1 (2.9) MSEK

High demand and an increased market share mean that turnover has increased by 13 % despite certain product areas having been wound up. The merger into one group led to greater efficiency and the profit increased by 283 %.

Production equipment and components for electronics production.

- Turnover 284 (239) MSEK
- Operating profit 18.5 (-0.5) MSEK

Steady demand, primarily in Finland and Norway, has resulted in the group's turnover increasing by 19 %. Previous restructuring together with continued efficiency measures means that the group turned a negative result into good profitability.
