

## **Business Development post at AssiDomän**

Ragnar Quarnström will, from August 1, take up a new position as responsible for the AssiDomän Group's Business Development function, reporting to the Group CEO. Ragnar Quarnström will also be responsible for the coordination of AssiDomän's East and Central European activities, and for all projects related to Sepap and Segezha. From August 1 he thus leaves as MD for the business area AssiDomän Kraft Products, but will continue on the Board of Directors of AssiDomän Kraft Products, Natro Cellulosa and Sepap.

East and Central Europe are strategically important areas for AssiDomän, and the investments being made in these regions require additional resources.

Mats Heiman, Carta Corporate Advisors, will from the same date enter as acting MD of AssiDomän Kraft Products.
