## Mandator signs frame agreement with Telia

**Mandator has signed a frame agreement with the Telia group for the acquisition of consulting services in the IT sector. This is the fourth year running that Mandator signs a frame agreement with the Telia group. The estimated value of the agreement is at least SEK 40 million.**

Telia has decided to sign frame agreements in the year 2000 with seven external suppliers of consulting services in the IT sector. Mandator is one of the companies that under the agreement will collaborate with the Telia-group as a whole.

“Telia is a strategically important customer to Mandator. We are very glad to be among the few selected suppliers to Telia. I believe it shows Mandator’s capacity to handle large as well as long-term commitments parallel with project-related offers in the technological front edge, says Anders Velandar, manager at Mandator Telecom.

**Mandator Telecom** offers services and solutions for clients in the market for telecom- and computer communication as well as to users of telecom-based services. Services are being offered in the area of business systems and product development in the field of Mobil- and Computer communication, Network Management, Embedded Systems, the Internet, CTI, Wireless applications and Customer Services.
