- Pricer acquires the industry colleague Eldat Communication Ltd, Israel, and issues $\mathbf{2 6 1 . 8}$ million shares (Class B) in an issues in kind

## Operations

Pricer signed an agreement in April with the principal shareholders of Eldat Communication Ltd to acquire the company and thereby strengthens the position as the world's principal provider of advanced Electronic Shelf Label systems for retailers. This acquisition brings Pricer's global market share above 60 percent and further accelerates the company's ambitions in this industry. Pricer acquires 100 percent of the shares in Eldat and in exchange issues 261.8 million shares (Class $B$ ) giving the owners of Eldat 25.8 percent ownership of Pricer. The value of the transaction is about SEK 300 M . The completion of the transaction, expected in June/July 2006, is subject to approval at the

AGM of Pricer. The joint companies' pro forma 2005 sales are SEK 454M with approximately 160 employees.

Orders received for the first quarter amounted to SEK 160.0M (51.6) and includes orders primarily from the French retail chain Carrefour of about SEK 120M for deliveries during the current year.

The order book at the end of the period amounted to approximately SEK 204M (138). The order book mainly comprises orders from Pricer's Japanese partner Ishida from 2001 and Carrefour, France. The majority of Pricer's existing orders are in USD or EUR.

At the end of the first quarter, Pricer had a total of over 1350 installations. These stores are primarily in Japan, Germany, France, the Nordic countries and rest of Europe.

## The market and market activities

In Pricer's judgment, the ESL market trend is continuously positive. The signals from Pricer's prioritised geographical markets are distinct and a growing number of retail chains have either initiated projects towards or have already taken the decision to include ESL as an operational tool in their automation processes.

Pricer has been chosen as supplier to complete the ESL system roll out of Carrefour's remaining corporately owned hypermarkets in France after successful deployments in 2004 and 2005. The agreement is worth SEK 120M for more than 70 hypermarkets in France. The installations commenced in February and will be completed during the year.

The French retail chain Leclerc's regional buying group Socamaine has chosen Pricer as ESL supplier. The agreement includes hardware, software and implementation services for 15 of the region's 35 hypermarkets and also includes five hypermarkets in the Leclerc Scarmor region. The agreement has a total value of about SEK 23M and deliveries began in March and will be completed during the current year. This agreement strengthens Pricer's already strong position in the market, both in France and Europe in general.

Deliveries to Japan were lower during the first quarter 2006 than during the same quarter 2005 and lower than the fourth quarter of 2005 . Volumes during these two quarters were higher as an effect of ongoing roll-out installations at Ito-Yokado, but also due to varying procurements with Ishida. The underlying demand of ESL systems in Japan is continuously strong.

In the US installations also outside Connecticut has occurred, to the retail chain Knowlan's.

## Net sales and result

Net sales increased to SEK 67.5M (50.6) during the first quarter, an increase of 33 percent. Deliveries during the quarter were mainly to Carrefour and Ishida.

The gross profit amounted to SEK 10.6M (11.3) and the gross margin was 16 (22) percent. The lower gross margin is mainly attributable to market mix of sales.

Operating expenses increased to SEK 31.6M (25.7) and are attributable to sales, product development and administration. As compared to the fourth quarter of 2005 operating expenses were reduced by SEK 0.9M through a reduction of development expenses, primarily through reduced external consultants, partly compensated by an increase in sales and administration expenses.

The operating result decreased to SEK -21.0M (-14.4).
Net financial items amounted to SEK 0.9 M (1.4) and consist mainly of negative currency effects.
The net result for the period decreased to SEK $-21.9 \mathrm{M}(-13.2)$.

Net sales and operating result, SEK $M$

|  | Jan - Mar 2006 | Jan - Mar 2005 |
| :--- | ---: | ---: |
| Net sales | 67.5 | 50.6 |
| Cost of goods sold | -56.9 | -39.3 |
| Gross profit | 10.6 | 11.3 |
| Gross margin | $16 \%$ | $22 \%$ |
| Expenses | -31.6 | -25.7 |
| Operating loss | -21.0 | -14.4 |

## Financial position

Cash flow from current operations during the first quarter was a SEK -11.7M (3.0) and has been negatively effected by the result but partly compensated by payments from customers, primarily from Carrefour. Liquid funds as of March 31, 2006, amounted to SEK 56.3M (44.1). Working capital amounted to SEK 58.9M (17.2) as compared to SEK 66.8M at the beginning of 2006, a reduction of SEK 7.9M.

The Board of Pricer decided on April 24 to issue 261.8 million shares (Class B), equivalent of 25.8 percent of the capital in Pricer, in exchange of all the shares in Eldat. The issue shall be approved by the shareholders at the Annual General Meeting in June 2006.

## Capital expenditure

Total capital expenditure, net, amounted to SEK 1.5M (2.2) and comprised production tools, computers and office equipment.

## Employees

The average number of employees during the quarter was 117 (99), 62 (55) of whom were employed in wholly-owned companies and 55 (44) of whom were employed by Appulse Ltd and PIER AB. The number of employees as of March 31, 2006 amounted to 124 (100), 66 (55) of whom were employed in wholly-owned companies and 58 (45) of whom were employed by Appulse Ltd and PIER AB. As of December 31 the equivalent number of employees was 112 , of whom 62 in wholly-owned and 50 in partly-owned companies, indicating that the increase during the first quarter is related to Appulse.

## Important issues after the end of the reporting period

Pricer signed an agreement in April with the principal shareholders of Eldat Communication Ltd to acquire the company and thereby strengthens the position as the world's principal provider of advanced Electronic Shelf Label systems for retailers. This acquisition brings Pricer's global market share above 60 percent. Pricer acquires 100 percent of the shares in Eldat and in exchange issues 261.8 million shares (Class B) giving the owners of Eldat 25.8 percent ownership of Pricer. The value of the transaction is about SEK 300M. The completion of the transaction, expected in June/July 2006, is subject to approval at the AGM of Pricer. The joint companies' pro forma 2005 sales are SEK 454M with approximately 160 employees.

## Forecast

According to Pricer, the market trend remains positive, with an increase in the total installed base and more solid interest from several major retail chains. Evaluations and negotiations with a number of retail chains are continuously ongoing.

The Board of Pricer confirms the earlier statement of reaching positive cash flow during 2006 taking into account the effects of the Eldat acquisition. The Board is of the opinion that available liquid funds are sufficient until positive cash flow is achieved.

## Annual General Meeting

The Annual General Meeting of Pricer originally planned for May 11 has been deferred until mid June due to the planned acquisition of Eldat. A new date has not yet been decided. A notice will be published in the coming weeks.

## Next reporting date

The Interim Report for the period January - June 2006 will be published on August 23, 2006.
