PRESS RELEASE
14 NOVEMBER 2006

Management change within the Plate Division/SSAB Oxelösund

Bengt Nilsson is to leave his position as head of the plate division in order to work instead on overall group technical and strategic issues. The work of recruiting a successor is underway.

During the transitional period that has now commenced, President and CEO Olof Faxander will be the acting head of the plate division, while Ola Hägglund, a unit manager within the plate division, will act as site manager and thereby be responsible for the operational and daily work in Oxelösund.
