Linköping, Sweden, November 16, 2006

## Sectra's distributor in the Netherlands becomes wholly owned subsidiary

**Sectra is increasing its ownership interest in the Dutch company ImaXperts BV from 20% to 100%. The company has 12 employees and reported sales of EUR 2.5 million in fiscal year 2005. The operations will be consolidated within the Sectra Group as of December 1, 2006.**

“The acquisition of ImaXperts strengthens our position and provides us the possibility to expand in Benelux,” says Torbjörn Kronander, President of Sectra Imtec AB. “The acquisition is fully in line with our goal to broaden distribution channels and the service organization in strategically important markets,” adds Torbjörn Kronander.

ImaXperts' operations focus on the sales and service of medical imaging systems and digital mammography systems in the Netherlands, Belgium and Luxemburg (Benelux). The company has been successfully distributing Sectra's medical systems since autumn 2005.

“Our goal is to become a leading supplier of medical imaging systems and digital mammography in Benelux,” says Peter Osinga, Managing Director of ImaXperts BV.

“As part of the Sectra Group we can provide and support our customers even better with cutting-edge, safe and clinically proven medical imaging solutions that are used by nearly thousand healthcare institutions around the world,” says Wim Schuur, Vice President of Sales ImaXperts BV”.

The acquisition has no immediate impact on Sectra's earnings and financial position. The agreement comprises a purchase price paid in cash and a supplementary payment linked to a positive business development during the next four years. Combined, the purchase price and supplementary payment could amount to a maximum of SEK 30 million.

### About Sectra's medical operations

Sectra is one of the world's major diagnostic imaging system (PACS) providers. More than 850 hospitals worldwide use the system daily and more than 40 million radiology examinations are diagnosed in Sectra's system annually. Sectra's systems have been installed in North America, Scandinavia and most major countries in Europe and the Far East. In Scandinavia, Sectra is the market leader with more than 50% of all film-free installations.

### About the Sectra Group

Sectra successfully develops and sells cutting-edge products in the expansive niche segments of medical systems and secure communication systems. The company was founded in 1978 and has its roots in the Linköping Institute of Technology in Sweden. Today, Sectra has offices in eleven countries and operates through partners worldwide. Sales in the 2005/2006 fiscal year totaled SEK 564 million. Since 1999, Sectra shares have been listed on the Stockholm Stock Exchange.
