Sectra MicroDose Mammography in clinical operation in Melbourne

The Royal Melbourne Hospital, one of Australia's leading public hospitals, has digitized its mammography operations with mammography systems from the IT and medical-technology company Sectra.

The digitization of the hospital's mammography operations promotes safe, ergonomic and efficient breast examinations. The totally integrated solution provides the lowest radiation dose on the market, unsurpassed throughput, customized workflow and outstanding ergonomics. This ensures safe, stress-free and quick examinations for the patients.

"Sectra provided us with an efficient workflow and good ergonomics. The system is based on technology permitting us to use minimal radiation doses in breast examinations and the workflow advantages are excellent," says Dr. Allison Rose, Senior Radiologist at The Royal Melbourne Hospital.

The Royal Melbourne Hospital is a major teaching, tertiary healthcare facility managed by Melbourne Health. The hospital's Breast Service provides diagnosis and management of breast disease for inpatients and outpatients. The total solution that has been implemented at the hospital includes Sectra MicroDose Mammography and PACS (Picture Archiving and Communication System) for managing and archiving of breast images.

About Sectra MicroDose Mammography

Sectra MicroDose Mammography is a mammography system dedicated to improve women's health. The system is an easy-to-use digital system that supports the entire workflow, from examination to documented diagnosis. Sectra MicroDose Mammography has been sold to customers in Australia, New Zealand, France, Sweden, Denmark, Norway, Germany, Austria, Switzerland, Ireland and the UK.

About Sectra's medical operations

Sectra is one of the world's major diagnostic imaging system (PACS) providers. More than 850 hospitals worldwide use the system daily and more than 40 million radiology examinations are diagnosed in Sectra's system annually. In Scandinavia, Sectra is the market leader with more than 50% of all film-free installations. Outside Scandinavia, Sectra's system is installed at customers in North America and most major countries in Europe and the Far East.

About the Sectra Group

Sectra successfully develops and sells cutting-edge products in the expansive niche segments of medical systems and secure communication systems. The company was founded in 1978 and has its roots in the Linköping Institute of Technology in Sweden. Today, Sectra has offices in eleven countries and operates through partners worldwide. Sales in the 2005/2006 fiscal year totaled SEK 564 million. Since 1999, the Sectra share is quoted on the Stockholm Stock Exchange. For more information about Sectra visit <http://www.sectra.com>.
