Renault Trucks signs distribution agreement with Nissan Motor regarding light truck

AB Volvo's subsidiary Renault Trucks has signed a distribution agreement covering the Renault Maxity light duty vehicle with the manufacturer Nissan Motor. An agreement in principle regarding the distribution agreement was signed in February 2006.

Renault Maxity is a cab-over-engine light duty vehicle produced by Nissan Motor at its plant in Spain. Sales by Renault Trucks' dealers will begin in March this year. Renault Maxity was developed and manufactured for Renault Trucks by Nissan Motor and is sold under Renault Trucks' own identity. Renault Maxity complements Renault Trucks' existing range of light trucks, comprising Renault Master and Renault Mascott, and is produced in a range of weight classes from 2.8 to 4.5 tons, with three engine alternatives.
