BTS Group AB receives order from NetJets Europe

Stockholm, Sweden– BTS Group AB (publ), the world's leading consulting and training company within the segment of business simulations, has signed a contract with NetJets Europe to develop and deliver a strategic business skills program worth SEK 1.5 million.

NetJets Europe is the largest operator of business jets and private jets in Europe.

The program targets the top 50 people in NetJets with the objective to strengthen strategic alignment, business knowledge, customer focus, and profitability.

Participants will work in a realistic computer simulated solution, based on BTS leading simulation technology, which has been designed, developed and customized to reflect the business environment for NetJets Europe.

“We are proud that NetJets has chosen BTS for this strategic program,” says Jonas Stalder, vice President BTS Nordic. “This is further evidence of our ability to deliver top quality projects to leading companies globally.”

BTS Group works almost exclusively with large, international companies. Some recent examples of companies where BTS has worked with strategic projects include: Coca-Cola, Weyerhaeuser, General Motors, Vodafone, Boeing, Telstra, Adobe, Hewlett Packard, Cisco, DHL, Honda, Toyota, Gap, SonyEricsson, Nokia, Scania and Sony.

About BTS Group AB

BTS Group AB is the world's largest and most successful consulting and training company within the segment of business simulations.

BTS supports executive management in corporate change processes and the implementation of new strategies with the objective to create a more successful and profitable company. BTS delivers this through real life, tailor made business simulations.

BTS educates and trains not only executive and top managers but also the entire organization so that they understand and have the ability to analyze the key factors most important to the company in terms of supporting growth and profitability.

All projects are managed as tailor-made business simulations delivered as e-learning solutions or as interactive seminars. In each case, individual participants and teams are given the opportunity to create their own experiences and instantly see the result of their efforts by working in a simulated environment where real live corporate data and conditions apply.

All of this creates a highly efficient education process where business strategies and objectives are transformed into action, which in turn leads to a higher awareness of which day-to-day business decisions affect corporate profitability and success. The overall result is measurable and sustainable profit improvements.

BTS customers are leading global corporations. Currently BTS customer list includes more than 25 of the world's 100 largest companies. During 2006 BTS recorded revenues of SEK 379,1 million (286,1) and earnings after tax of SEK 38,6 million (36,8). BTS has approximately 200 employees in Sweden, Finland, UK, Spain, Holland, Switzerland, US, Australia, China and South Africa.

BTS is a publicly traded company on the Stockholm Stock Exchange and trades under the symbol BTS B
