The Group

July – September

On September 26, the boards of Eniro and Findexa announced that they had reached an agreement on the terms of a recommended acquisition by Eniro of Findexa. The total purchase price consists of a cash payment of NOK 4,515 M and 26.8 million Eniro shares, whereof a maximum of 24 million newly issued shares. The acquisition enhances Eniro's position as a leading search company in the Nordic media market and entails cost synergies, a more efficient capital structure and improved cash flow. The Norwegian Competition Authority informed on October 18, 2005, that it approved the acquisition. The acquisition is expected to be completed around December 5, after a formal court order in Jersey and the approval of the shareholders of Findexa and Eniro.

During the quarter, competition remained intense in most of Eniro's markets.

Order intake for the Swedish offline is better than expected. The market outlook for Swedish offline revenues, reported in Eniro's interim report for the second quarter, of an estimated organic decline of -3 percent for 2005 and 0 in 2006 has been adjusted. The new market outlook for offline revenues is an estimated organic decline of -2 percent for 2005 and unchanged in 2006. The market outlook for an expected increase in online revenues in Sweden excl Voice of more than 10 percent remains in effect.

Eniro's revenues and profitability in Finland were weaker as a result of changed market conditions. During the quarter, a review of the organization was initiated, which will lead to restructuring costs during the fourth quarter of 2005 of roughly SEK 15 M. Starting in 2006, the measures implemented will result in annual cost savings of about SEK 15 M. Because of the changed market conditions and higher costs in 2005, the Finnish EBITDA margin for 2005 is expected to fall to the bottom end of the range of 8 – 10 percent (excluding restructuring costs), communicated in the interim report for the second quarter.

As part of Eniro's concentration on its core markets in the Nordic countries and Poland, operations in Russia were disposed of in October, with completion expected in November. Operations in the Baltic countries were disposed of in the second quarter and finalized in the third quarter.

The Group's operating revenues fell 1 percent to SEK 969 M (977). Organically (adjusted for exchange rates, acquisitions and disposals as well as changes in publication dates), revenues increased 1 percent. Offline revenues fell 10 percent to SEK 413 M (457). Organically, offline revenues fell 4 percent. Online revenues increased 7 percent to SEK 556 M (520) and also increased organically 5 percent. The Group's EBITDA for the quarter was SEK 194 M (192).

January – September

The Group's operating revenues for the first three quarters of 2005 fell 2 percent to SEK 3,066 M (3,130). Organically, revenues fell 1 percent. Offline revenues fell 9 percent to SEK 1,474 M (1,623). The organic fall in offline revenues was 7 percent. Online revenues increased 6 percent to SEK 1,592 M (1 507). Organically, online revenues increased 5 percent. EBITDA for the first three quarters fell 8 percent to SEK 686 M (745). The decrease is largely due to lower earnings in Finland.

July – September

Operating revenues for the third quarter increased 3 percent, while organically they increased 2 percent.

Organically, offline revenues fell 4 percent.

During the quarter, revenues were reported from seven Gula Sidorna directories, including for the cities of Helsingborg, Skövde and Karlstad. For comparable published Gula Sidorna directories, the average revenue per advertiser (ARPA) decreased by 1 percent, and the number of advertisers fell 2 percent, compared to the third quarter of 2004.

Revenues from Gula Tidningen were down compared to 2005 and had an adverse effect on offline revenues. Operating revenues from the 36 Din Del directories published increased strongly.

The organic increase in online revenues for the third quarter was 13 percent.

EBITDA for the third quarter was SEK 119 M (116).

January – September

Operating revenues for the first three quarters increased organically 1 percent. Offline revenues fell 5 percent, while they fell organically 3 percent. Online revenues increased 12 percent, which was also the organic increase. EBITDA improved by 11 percent, largely as a result of lower costs.

Sweden Voice

Eniro is the market leader in directory assistance services in Sweden and maintained its market share in 2004.

SEK M	July - September			January - September			
	2005	2004	%	2005	2004	%

EBITDA	41	40	3	78	106	-26	
EBITDA marg	26	25		17	23		

July - September

Operating revenues totaled SEK 156 M (159). The number of calls to directory assistance declined somewhat as a result of greater competition from the Internet. The decrease is however to a large part compensated by new, more refined, services.

EBITDA during the quarter was positively affected by timing effects on costs.

January – September

Operating revenues fell slightly as a result of lower volume.

Restructuring costs of SEK 15 M had a negative impact on EBITDA. The restructuring costs pertain to the cut in the number of operation locations and will result in annual savings of about SEK 20-25 M beginning in 2006.

Timing effects have implied higher costs during the first six months 2005.

July - September

The changed market conditions that developed in Finland in 2004 for both Gula Sidorna and B2B products continue.

Operating revenues for the third quarter fell 2 percent to SEK 103 M (101). Organically, the decrease was 4 percent.

EBITDA fell to SEK -12 M (-6).

During the quarter, a review of the organization was initiated which will result in restructuring costs during the fourth quarter of 2005 of roughly SEK 15 M. Starting in 2006, the measures implemented are expected to result in annual savings of about SEK 15 M.

As a result of changed market conditions and higher costs during 2005, the Finnish EBITDA margin in 2005 is expected to fall to the bottom end of the range of 8-10 percent (excluding restructuring costs).

The measures for cost savings and product offering that were initiated earlier are expected to have a positive effect on earnings in 2006.

January – September

Operating revenues for the first three quarters fell organically by 14 percent. Operating revenues from the Tampere and Helsinki directories fell a total of 27 percent.

The EBITDA margin for the first three quarters fell to 3 percent (25) as a result of the decline in operating revenues and higher costs.

During the second quarter, Eniro acquired operations in directory assistance which are expected to have a positive impact of SEK 5 M annually on Eniro Finland's EBITDA.

Denmark

In Denmark, Eniro has focused its offering on local directories and on Internet and mobile services. Eniro's share of the Danish directory advertising market is 20 percent (20) and its share of Internet advertising in 9 percent (10).

July - September

Operating revenues fell 33 percent to SEK 98 M (146). Taking into account the effects of the change in publication dates of SEK –51 M, whereof SEK 28 M will be published during the fourth quarter, and exchange rate effects, the organic increase was 1 percent.

The change in publication dates had a negative impact on EBITDA compared to the same period 2004.

In August, a sales office opened in Århus with mostly online sales staff.

January – September

Operating revenues fell 6 percent. Organically, revenues increased 3 percent.

EBITDA was negatively affected by the shift in publication dates.

Norway

The Eniro Internet operation in Norway has one of the leading market positions with a 16 percent (14) market share.

July – September

Operating revenues increased 38 percent. Taking into account exchange rate differences and the change in publication dates of SEK 8 M, the organic rate of growth in revenues was 7 percent.

EBITDA increased to SEK 12 M (1).

January – September

Operating revenues increased 23 percent, whereof the organic increase was 11 percent compared to the same period in 2004.

In Eniro Poland, the publishing of directories is concentrated to the fourth quarter and only a limited number of directories were published during the first nine months.

Germany

Through Wer Liefert Was? in Germany, Eniro is a market leader in B2B search services on the Internet with a focus on industrial purchasers. Eniro's share of the Internet advertising market in Germany is about 12 percent (13).

SEK M	July - September			January - September

Revenues	87	92	-5	259	287	-10
EBITDA	20	12	67	63	66	-5
EBITDA marg	23	13		24	23	

July - September

Operating revenues fell 5 percent compared to the third quarter of 2004. The organic decline was 8 percent. The transition in operations and a weak German economy have had an adverse effect on sales.

EBITDA was positively impacted by timing effects on costs compared to the equivalent period last year.

January – September

Operating revenues fell 10 percent.

Timing effects on cost had a positive impact the first nine months. A one-time reversal of a reserve relating to a change in the sale organization had a positive effect of SEK 6 M on EBITDA during the period.

The transition in operations is expected to be completed at the end of 2005.

Eastern Europe

Eniro intends to dispose all of its operations in Eastern Europe. Following IFRS 5, operations that are being disposed of are excluded from consolidated operating revenues and operating income.

January – September

As part of Eniro's focus on its core markets, all operations in Russia were disposed of in October. The sale is pending the approval of the Russian antimonopoly authority, and it is expected that the sale can be completed in November 2005. The sale is not expected to generate any material capital gain. During the quarter, the sale of Eniro's operations in Estonia and Lithuania was finalized, generating a capital gain of SEK 92 M. The sale of operations in Latvia was finalized during the second quarter. After the above mentioned divestments, only operations in Belarus remain within Eastern Europe.

Other

This category includes costs for corporate headquarters and Group-wide projects as well as costs for structural transactions where appropriate. For the third quarter, EBITDA was SEK 10 M (-19) and SEK -35 M (-72) for the first three quarters of 2005. Cost savings at corporate headquarters and low costs for Group-wide projects had a positive impact on earnings.

Consolidated cash flow

Consolidated cash flow from operations was SEK 187 M (165) for the quarter and SEK 650 M (815) for the first nine months. The cash flow for the first three quarters of 2005 was influenced by one-time effects in the first quarter; payments made for costs in Germany for which provisions were previously set aside, and change in working capital.

Financial position

The Group's interest-bearing net debt totaled SEK 2,758 M at the end of the period. The equity/assets ratio was 26 percent at the end of the period, which was unchanged compared to the end of 2004. The debt/equity ratio was 1.48 compared to 1.51 at the end of December 2004. Interest-bearing net debt divided by EBITDA was 2.2 compared to 2.1 at the end of December 2004. Return on equity was 42 percent for the most recent twelve months.

Taxes

The tax expense for the third quarter is estimated to be SEK–68 M (–29) and SEK –181 M (–170) for the nine-month period. The underlying tax on profit for the period is about 29 percent for the group. Tax expense for the third quarter is affected by one-time effects from inter alia revaluation of tax losses carried forward in Denmark.

Earnings per share

Cash earnings per share were SEK 1.22 (0.80) for the third quarter and SEK 3.36 (2.81) for the nine-month period. Earnings per share were SEK 1.02 (0.67) for the quarter and SEK 2.82 (2.41) for the nine-month period.

Share repurchase

Eniro had 3,860,700 of its own shares at the end of the reporting period. The average number of own shares during the third quarter was 3,860,700 and during the nine month period 2,669,781. About 2.9 million shares will be used as payment at the acquisition of Findexa. The remaining number of shares will be kept to be used in the share-savings program (se below).

Share-savings program

About 300 Eniro employees decided to take part in the share-savings program that was adopted by the 2005 Annual General Meeting. All of Eniro's permanent employees in Sweden, Finland and Norway as well as senior executives in Denmark and Poland are invited to participate in the share-savings program.

Employees

On September 30, 2005, the number of full-time employees was 4,510 (4,959). The number of employees is broken down by region as shown in the following table:

1.480	(1,507)
1,098	(1,113)
1,375	(1,271)

Accounting principles as of 2005

This interim report has been prepared in accordance with the International Financial Reporting Standards (IFRS), approved by the European Union (EU). The organization of the report adheres to IAS 34 Interim Financial Reporting. The interim report has been prepared in accordance with RR31. A more detailed description of the principles applied effective as of 2005 is given in the 2004 Annual Report.

The central principle is that IFRS and other changes in principles shall be applied retroactively. The changes in assets and liabilities thus arising were booked directly in shareholders' equity at January 1, 2004. A review of these effects and a more detailed account of how the transition to the new principles was effectuated are provided in the interim report for the first quarter of 2005.

In accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations, operations that Eniro is phasing out are reported separately in the balance sheet and income statement, since it is highly probable that a sale will be finalized within one year. This means that the Eastern European operations are reported separately effective from the second quarter of 2005 under the heading Discontinued operations.

Effect on revenues resulting from changes in publication dates during 2005

Revenues from the sale of printed directories are reported when the various directories are distributed. A change in publication dates can thus affect comparisons between the same quarters for different years. In a comparison between 2005 and 2004, the net effect on operating revenues as a result of changes in publication dates is estimated to be a total of about SEK –24 M.

	Effect on revenues resulting from changes in publication dates in 2005 compared to 2004

Poland	-1	-11	8	5	0						
Total effect	-44	14	-39	45	-24						

Distribution of revenues from bundled sales in 2005

Sales of bundled products in the Swedish operation amount to about SEK 450-500 M. In reporting these sales revenues as offline or online, a distribution ratio is applied that is based on the usage of the products and which is updated annually. As of January 1, 2005, 35 percent (30) of the sales from bundled products are recognized as online sales, while 65 percent (70) are recognized as offline sales.

Acquisitions

On September 26, the boards of Eniro and Findexa announced that they had reached an agreement that Eniro would carry out a recommended acquisition of Findexa. Shareholders of Findexa representing 61.1 percent of the share capital have committed to vote for the acquisition. The total purchase price consists of a cash payment of NOK 4,515 M and 26.8 million Eniro shares, 24 million of these being newly issued shares. The acquisition enhances Eniro's position as a leading search company in the Nordic media market and entails expected cost synergies, a more efficient capital structure and improved cash flow.

The Norwegian Competition Authority informed on October 18, 2005, that it approved the acquisition. It is expected that the acquisition can be completed around December 5, after a formal court order in Jersey and the approval of the shareholders of Findexa and Eniro.

With the aim of enhancing Eniro's market position in directory assistance in Finland, directory assistance operations in Finland were acquired during the second quarter. The purchase price was SEK 13 M. The operations reported revenues of SEK 10 M in 2004, and are expected to add SEK 5 M to EBITDA annually.

Eniro has secured a license for a technical platform in paid search through a contract with MIVA. The intention is to be able to broaden the customer offering and use more sophisticated pricing models. In addition to the licensing agreement, Eniro also acquired the assets of MIVA (Espotting Scandinavia) in Sweden, Norway and Denmark for a total of SEK 5 M.

Disposals

Eniro has divested all operations in the Baltic countries for a total of about SEK 80 M. The sale of Latvian operations was finalized on May 31, 2005, and the sale of operations in Estonia and Lithuania was finalized on August 31, 2005. The total capital gain from the sale of operations in the Baltic countries was SEK 92 M.

After the end of the third quarter, operations in Russia were sold for EUR 5 M or roughly SEK 47 M. The sale, which includes all of Eniro's legal units in Russia, is pending the approval of the Russian anti-monopoly

authority and is expected to be finalized in November 2005. The disposal is not expected to generate any material capital gain.

New financing

In conjunction with the disclosure of the transaction to acquire Findexa, Eniro signed a loan agreement corresponding to SEK 12,000 M with four Swedish banks as co-arrangers. The aim of the financing is partly to finance the acquisition of Findexa, partly to refinance Eniro's and Findexa's existing credit facilities.

Legal issues

Eniro reached a settlement on the matter regarding the infringement of Eniro's rights by TeleDanmark's (TDC) Swedish subsidiary through the distribution of the telephone directory Gulan in the Swedish market. TDC's Swedish subsidiaries have agreed to cease to infringe Eniro's rights to the database Gula Sidorna on the Internet and to the trademark Gula Sidorna. In addition, TDC's Swedish subsidiary is paying compensation to Eniro. The parties have agreed not to disclose the financial portion of the settlement.

The Parent Company

Operating revenues for the first three quarters totaled SEK 41 M (34). All operating revenues pertain to intra-Group sales. Earnings before tax totaled SEK 699 M (–86), whereof SEK 756 M being dividends from subsidiaries. Investments totaled SEK 195 M (74), and consist solely of capital contributions to subsidiaries. The Parent Company's interest-bearing net debt totaled SEK 2,577 M (1,987) at the end of the period.

The interim report for the parent company has been drawn up in accordance with RR32.

Market outlook

Order intake for the Swedish offline is better than expected. The market outlook for Swedish offline revenues reported in Eniro's interim report for the second quarter of an estimated organic decline of -3 percent for 2005 and 0 in 2006 has been adjusted. The new market outlook for offline revenues is an estimated organic decline of -2 percent for 2005 and unchanged in 2006. The market outlook for an expected increase in online revenues in Sweden excl Voice of more than 10 percent remains in effect.

As a result of changed market conditions and higher costs in 2005, the Finnish EBITDA margin for 2005 is expected to fall to the bottom end of the range of 8-10 percent (excluding restructuring costs), communicated in the interim report for the second quarter.

Through a cost-savings program, Eniro will reduce its total cost level, calculated in fixed monetary values, by SEK 350 M compared to a cost level of SEK 3.7 billion in 2003. These net savings, of which some 75 percent will be realized in Swedish operations, are expected to have an effect of SEK 100 M during 2005, SEK 250 M

during 2006 and the full effect of SEK 350 M during 2007. The specified effects are net savings.

In order to meet the tougher competition in online, it was decided and announced during the second quarter that about SEK 25 M would be additionally spent in product development in the second half of 2005.

Other information

Following a decision at the 2005 Annual General Meeting, a nomination committee was appointed. The nomination committee, for the 2006 Annual General Meeting, consists of Wouter Rosingh, Hermes Focus Asset Management, Torsten Johansson, Handelsbanken/SPP Fonder, Magnus Wärn, AMF Pension, Ossian Ekdahl, Första AP-fonden and Lars Berg, the Chairman of the Board of Eniro. The Chairman of the Nomination Committee is Wouter Rosingh. Shareholders wishing to make proposals to the Nomination Committee @eniro.com

Extraordinary General Meeting

In view of Eniro's proposed acquisition of all outstanding shares in Findexa Limited, Eniro's board of directors has decided to call an Extraordinary General Meeting pertaining to the board's mandate to decide on the issue of new shares and the board's mandate to decide on a transfer of Eniro's own shares. The Extraordinary General Meeting will take place on Monday, November 7, 2005, at 5 p.m. at Näringslivets Hus, Storgatan 18, Stockholm, Sweden.

Auditor's Review Report

We have reviewed this Interim Report in compliance with the recommendation issued by the Swedish Institute of Authorized Public Accountants (FAR). A review is considerably limited in scope compared with an audit. Nothing has come to our attention that causes us to believe that the Interim Report does not comply with the requirements of the Securities and Clearing Operations Act and the Annual Accounts Act.
