

## Pressrelease

Stockholm 17'th of October 2007

### **DIBS Payment Services have entered into an agreement to provide a payment solution to Comwell.**

– Comwell owns and operates hotel, spa and conference centres throughout Scandinavia.

**"Our hotel business is Scandinavian and it is important to us that our suppliers are professional actors on the same markets as ourselves. Often, our website is the first thing our customers see, so we have high demands on quality and stability and with their knowledge of payment solutions, DIBS can contribute to our customers having a good experience on our website," states Henrik Hjorth, Sales and Marketing Director from Comwell.**

"I am very pleased that Comwell has selected us as their provider in Scandinavia and we see this as further acknowledgement that more and more customers need a payment provider who can service them across national borders. We offer access to all relevant payment forms in Scandinavia and can provide local consulting and service to our customers – during the start-up phase and during the normal working day," says Eric Wallin, CEO for DIBS.

Today, Comwell owns and operates 12 hotels in Scandinavia. All hotels are very different but common to them all is high quality, personal service as well as professional and competent employees. Comwell has specialised in conferences and spas – either individually or combined. Comwell's Meeting Designers are available at all hotels and can assist so your meeting or conference is as exciting, rewarding and effective as possible.
