

- Profit before tax was SEK 2,116 (500) m and net profit was SEK 1,987 (877) m, equivalent to SEK 48.1 (21.7) per share.
- Kungsleden's rental revenues increased to SEK 1,845 (1,429) m and operating net increased by 28 per cent to SEK 1,304 (1,017) m.
- Earnings for calculating dividends amounts to SEK 1,001 m, corresponding to SEK 22 (14) per share. The Board proposes that dividend is raised by 56 per cent to SEK 11 (7) per share.
- The Board intends to propose the AGM a share split 3:1.
- During the year, 56 properties were divested for SEK 2,917 m generating profits of SEK 318 m and cash flow of SEK 403 m; 466 properties were acquired for SEK 13,351 m.
- Kungsleden is forecasting profit of SEK 1,500 m for the financial year 2006.

#### KUNGSLEDEN'S BUSINESS CONCEPT, VISION AND STRATEGY

Kungsleden owns and manages properties, generating high and stable long-term returns.

Kungsleden's vision is that by means of skilled entrepreneurship and a high level of expertise, Kungsleden will become Sweden's most profitable and successful property company.

We intend to achieve our objectives by:

- Enhancing our skilled and businesslike organisation;
- Pursuing customer satisfaction through the active management and enhancement of our property holding;
- Proceeding from our existing holding, and through acquisitions and disposals, assuring high long-term returns.

Kungsleden pursues the objective of continuously enhancing its portfolio's risk-adjusted returns. The corporation strives to constantly maintain high and stable cash flow from operations. Moreover, Kungsleden minimises operating risk by diversification in terms of property type, geographical market, tenants and by spreading rental contract maturities over time.

Kungsleden avoids development projects, because typically, they imply significant cash flow uncertainty. Kungsleden utilises property trading, which by experience can be successful regardless of general economic conditions, to enhance its portfolio's risk-adjusted returns.

#### PROFIT

##### **Earnings capacity**

The continuous realignment of our property holding means at any given time, the Income Statement does not offer the most accurate impression. Instead, earnings capacity indicates the

appearance of the Income Statement as if the properties owned at 31 December 2005 had been owned for the previous 12 months. The intention is to illustrate the impact of changes to the property holding, and to create the most accurate possible impression of the current situation.

<b>Earnings capacity, SEK m</b>	<b>31 Dec. '05</b>	<b>SEK/ sq.m.</b>	<b>31 Dec. '05</b>	<b>SEK/ sq.m.</b>
Rental revenues	2,737	722	1,997	756
Operating and maintenance costs	-801	-211	-519	-196
Property tax	-73	-19	-57	-22
Ground rent	-18	-5	-23	-9
<b>Operating net</b>	<b>1,845</b>	<b>487</b>	<b>1,398</b>	<b>529</b>
Book value	25,750		19,231	
Property yield, %	7.2		7.3	
Economic occupancy, %	90.0		92.7	
Profit margin, %	67.4		70.0	
Floor-space, 000 sq.m.	3,790		2,642	

Property trading in the year exerted a positive impact on earnings capacity. In terms of sales price, divested properties' property yields were 5.8 per cent, while the estimated property yield of acquired properties was 7.3 per cent.

The divested properties' risk-adjusted returns were lower than, and acquired properties' higher than, the portfolio average risk-adjusted return.

Property management had a negative impact on earnings capacity.

##### **Kungsleden's results**

Net profit for the year was SEK 1,987 m, a SEK 1,110 m increase on the previous year. Return on equity was 38 (24) per cent. The property yield was 6.7 per cent in actual terms and 7.2 per cent in terms of earnings capacity.

The operating net increased by SEK 287 m, mainly due to the holdings being larger. The operating net has also been affected by a decrease in the profit margin from 71.2 per cent to 70.7 per cent. The profit from property trading increased by SEK 252 m. Administration costs grew by SEK 13 m, and financial costs increased by SEK 90 m. Unrealised value changes were SEK 1,191 m, a SEK 1,181 m increase on the previous year. The tax cost for the year was SEK 129 m, a SEK 506 m increase on the previous year's SEK 377 m tax revenue.

Unrealised value changes are explained by changed market value of the properties SEK 1,122 (117) m and changed market values on interest derivatives of SEK -9 (-99) m, and on interest-bearing liabilities of SEK 77 (-7) m. The assessment of actual property values is based on Kungsleden's business plans, which are updated continuously for all properties at least once annually, and in addition, specific properties are updated if there are special circumstances. This increase to actual values is primarily dependent on declining required rates of return, a consequence of progress on bond and property markets. Average funding rates were 3.91 per cent as of 31 December. The market yield of a new funding portfolio with the corresponding maturity structure was less than 3 per cent. Kungsleden has the ambition to alleviate the uncertainty inherent in future interest payments by fixing interest terms on an ongoing basis by utilising interest derivatives, mainly swaps. The market value of Kungsleden's interest derivatives—SEK -234 (-225) m as of 31 December—is directly related to yields, but is also due to the duration of derivatives. The change in the year is primarily due to declining market yields in the period. The market valuation of other financial instruments increased on the back of the value of outstanding liabilities by SEK 68 (146) m in the Balance Sheet.

The tax cost/revenue in the period was SEK -129 (377) m, with the tax cost affected by a revised assessment of temporary differences on shares in subsidiaries and the possibility to incorporate properties, to subsequently divest shares.

#### THE PROPERTY HOLDING

As of 31 December 2005, the property holding comprised 779 (371) properties with floor-space of 3,790,000 (1,966,000) sq.m. and a book value of SEK 25,750 (13,452) m. The properties were located in 148 municipalities, with the three major city regions of Greater Stockholm, Greater Gothenburg and the Öresund region representing 54 per cent of property book value. SEK 13,351 m-worth of properties were acquired in the year, while Kungsleden made SEK 339 m of investments in existing properties. In terms of book value, divestments were SEK 2,599 m, and SEK 2,514 m in terms of acquisition value.

#### PROPERTY TRADING

In the year, 466 (64) properties with floor-space of 2,117,000 (417,000) sq.m. were acquired for SEK 13,351 (2,490) m. These transactions were effected at an estimated property yield of 7.3 per cent. Meanwhile, 56 properties were divested for a total of SEK 2,917 m, with profits of SEK 318 m and cash flow of SEK 403 m. These divestments were effected at an estimated property yield of 5.8 per cent. The prices received were SEK 348 m above internal valuations and SEK 280 m above external valuations. For 17 of these properties, the sales value per property was below SEK 10 m.

Profit effect on divested properties	Sales, SEK m	Profit, SEK m	No.
Positive	2,233.6	376.8	31
Zero	374.6	0	16
Negative	339.2	-28.6	9
Sales overheads	-30.2	-30.2	
<b>Total</b>	<b>2,917.2</b>	<b>318.0</b>	<b>56</b>

#### The reporting period

In the fourth quarter, 32 properties were divested for SEK 1,731 m, generating profits of SEK 112 m; 251 properties were acquired for SEK 7,600 m. The divestments were ten retail properties, eight office properties, three retirement home properties, three industrial/warehouse properties and eight of the 'other' type. The properties were divested at an estimated property yield of 5.7 per cent. Kungsleden acquired 52 office properties, 47 industrial/warehouse properties, 40 retail properties, five care properties, seven school properties, one retirement home property and 99 of the 'other' type. The estimated property yield of acquired properties was 6.9 per cent.

The above amounts include a property holding of a total of 183 properties with corresponding operations and an aggregated property value of SEK 5.4 bn, aquired from Weland Fastigheter and Fogelviks Holding, which became effective on 1 December 2005. The holding encompassed 1 000 000 sq.m of lettable floor space. The aquired holding in the acquisition had a total rental value of SEK 834 m, rental revenues of SEK 681 and an operating net of SEK 357 m, which was equivalent to a property yield of 6.6 per cent.

## FUNDING

The funding portfolio totalled SEK 17,701 m, and including the market values of financial instruments, was SEK 18,003 m.

Average interest was 3.91 per cent, against 4.93 per cent as of 1 January. Meanwhile, the interest fixing period changed from 2.41 to 2.15 years.

### Interest fixing period as of 31 December 2005

Maturity	Nom. amt., SEK m	Prop., %	Ave. int., %
2006	10,553	59.6	3.02
2007	1,028	5.8	4.95

<b>Total</b>	<b>18,003</b>		

## SHAREHOLDERS' EQUITY

The closing balance of shareholders' equity was SEK 6,649 m or SEK 146 per share, equivalent to an equity ratio of 24.2 per cent.

## THE SHARE AND SHAREHOLDERS

The closing price on 31 December 2005 was SEK 230.0.

Accordingly, compared to the year-end 2004 closing price of SEK 125.5, the share had risen by 83.3 per cent. These figures have been adjusted for the 2:1 split consummated in May 2005, whereupon the closing price in 2004 was recalculated for the new number of outstanding shares. The EPS calculations factor in the new number of outstanding shares retroactively for the corresponding period of the previous year and the bonus issue element of the new issue.

The share capital at year-end was SEK 56,875,860 divided between 45,500,688 shares, each with a nominal amount of SEK 1.25, against 18,958,620 shares as of 1 January. The aforementioned share split increased the number of shares by 18,958,620. A SEK 1,001 m new issue in October 2005 to existing shareholders increased the number of outstanding shares by another 7,583,448. As of 31 December 2005, Kungsleden had some 18,100 shareholders, an increase of approximately 34 per cent on the previous year-end.

Shareholder	No. of shares	% of vote and capital

## HUMAN AND ORGANISATIONAL RESOURCES

On 8 April 2005, Åke Kaur left the group management, and his position as Regional Manager for East region, to become Manager of the Care Properties business area.

In May, Eva Eriksson was employed as Regional Manager for East region. Eva joined Kungsleden from construction group JM, took up her position as regional manager in August 2005, thereby becoming a member of the group management.

In the business acquisition, which became effective on 1 December, Kungsleden took on existing staffing of some 100 full-time employees, half of whom are janitors. The management of this holding will be integrated into Kungsleden's existing regions and service centres.

The average number of employees was 100 (82).

## PARENT COMPANY

The parent company generated a net profit of SEK 3,655 (535) m; its sales were SEK 0 (0) m. Assets primarily comprise the funding of subsidiaries' property holdings, divided between shares in subsidiaries of SEK 5,257 (1,235) m, and interest-bearing internal funding of SEK 1,787 (1,631) m. Funding was mainly through shareholders' equity of SEK 5,574 (2,691) m and external debt of SEK 800 (300) m.

## ACCOUNTING PRINCIPLES

This Interim Report has been structured pursuant to IAS 34 Interim Financial Reporting. The group adopted IFRS (International Financial Reporting Standards) on 1 January 2005, which have been endorsed by the EU Commission, and the additional mandatory information for legal entities pursuant to RR's (Redovisningsrådet, the Swedish Financial Accounting Standards Council) recommendation RR 32. Comparative figures for 2004 have been re-calculated pursuant to IFRS, and

thus the same accounting principles have been applied in 2004 and 2005. The effects of the re-calculation of profits for 2004 and the opening and closing balances of shareholders' equity in 2004 are summarised below. Overall, Kungsleden considers that cash flow from management is not affected by the new standards, while accounted profits including value changes will vary.

#### **Primary changes resulting from the adoption of IFRS:**

- Re-classification of properties pursuant to IAS 40, valuing them at actual value;
- Accounting financial items at actual value pursuant to IAS 39;
- Accounting the effects of deferred tax on these changes.

#### **Income Statement – previous/new principles 2004**

SEK m	2004		2004		2004 Oct-Dec
	Jan-Mar	Apr-Jun	Jul-Sep	Oct-Dec	
Profit, previous accounting principles	156.2	124.1	82.6	565.2	
Actual value of properties divested	-50.0	-54.3	-11.4	-1.4	
Unrealised value changes, properties	122.3	-20.9	29.2	21.4	
Unrealised value changes, derivatives	-135.5	138.0	-35.3	-73.4	
Deferred tax	17.7	-17.6	4.9	15.0	
<b>Profit, IFRS</b>	<b>110.7</b>	<b>169.3</b>	<b>70.0</b>	<b>526.8</b>	

#### **Balance Sheet – previous/new principles**

SEK m	2004		2003	
	31 Dec	31 Dec	31 Dec	31 Dec
Shareholders' equity, previous accounting principles	3,509.7		2,827.9	
Actual value, properties		989.3		954.5
Actual value, derivatives		-371.5		-265.3
Deferred tax		-173.1		-193.0
<b>Shareholders' equity, IFRS</b>	<b>3,954.4</b>		<b>3,324.1</b>	

IFRS has resulted in fairly extensive revisions to the structure of Income Statements, Balance Sheets, Cash Flow Statements and reported figures. The adoption of IFRS in the first quarter of 2005 has also resulted in a review of the definitions on page 11, and the amendment of risk limits and objectives stated below.

The parent company's accounts have been prepared pursuant to RR recommendations and its Emerging Issues Task Force statements pursuant to legislation and generally accepted accounting practice in Sweden.

More data on the group's accounting principles will be published in the Annual Report for 2005.

#### **Revised accounting principles for 2005**

In November 2005, the EU Commission endorsed all financial instruments of a corporate group being valued at actual value pursuant to IAS 39. Kungsleden has chosen to adopt market

valuations pursuant to IAS 39 for all financial instruments. Previously accounted figures have been re-calculated. The effects of previous previously published reports are apparent in the tables below. The comparative figures for 2004 and the above table regarding the re-calculations of previous years' profits coincident with the adoption of IFRS take this revised principle into consideration.

#### **Income Statement – previous/new principles 2005**

SEK m	2005		
	Jan-Mar	2005 Apr-Jun	2005 Jul-Sep
Profit IFRS, previous accounting principles	114.4	649.8	255.7
Financial instruments, unrealised value changes	6.0	-21.2	26.3
Deferred tax	-1.7	5.9	-7.4
<b>Profit IFRS, new principles</b>	<b>118.7</b>	<b>634.5</b>	<b>274.6</b>
Average number of shares	40,430,117	40,430,117	40,430,117
Earnings per share, previous principles	2.60	15.00	5.90
Earnings per share, new principles	2.70	14.60	6.30

#### **Risk limits and objectives**

The risk limits for portfolio composition are unchanged—a maximum of 30 per cent of rental revenues sourced from industrial and warehouse properties and a maximum of 30 per cent of rental revenues from properties in municipalities with populations of less than 25,000. However, the equity ratio limit has been replaced with an interest coverage objective of a multiple of 2. The interest coverage ratio should not fall below a multiple of 1.5. The objective of a 15 per cent return on equity has been retained, although the objective of an 8.5 per cent property yield on the property portfolio has been discarded.

Interest cover multiple amounts to 2.7 (2.1) for the financial year. The return on equity amounts to 37.5 (24.1) per cent.

#### **FORECAST FOR 2006**

The Board of Directors estimates that profit for calculating dividends for 2006 will be SEK 1,500 m. Profit for calculating dividends means net profit excluding items not affecting cash flow such as unrealised value changes, depreciation, amortization and deferred tax, with a supplement for realised value changes. Profit for calculating dividends corresponds to the cash flow statement item cash flow from operations.

## SIGNIFICANT EVENTS AFTER THE END OF THE PERIOD

In January, Kungsleden divested 71 retail properties for SEK 1,721 m, which comprise over 185,000 sq.m. of lettable floor-space, 157,000 sq.m. of which was retail premises with a rental value of SEK 162 m. The sales price exceeded book value by SEK 7 m. One additional property was divested as of the end of the financial year, generating a profit of SEK 2 m.

Overall, these divestments will provide additional cash flow of approximately SEK 215 m in 2006. Kungsleden also acquired a care property for SEK 75 m.

In January 2006, Jens Engwall announced his resignation as Kungsleden's Chief Executive; the search for his successor has begun. Mr. Engwall will remain as Chief Executive until the mid-point of the year, and the Board of Directors has agreed that after his six-month notice period, his services will be at the disposal of the company until 1 January 2007.

This Financial Statement has not been reviewed by the company's auditors.

Total yield, %			88.9	36.8
Dividend yield, %			5.6	6.7
P/E-ratio, multiple			4.2	2.6
P/CE-ratio, multiple			3.8	5.2
Operating surplus, SEK	8.6	6.3	31.6	25.2
Profit, SEK	21.7	13.0	48.1	21.7
Cash flow from operations, SEK	7.4	7.5	24.3	14.5
Property book value, SEK			565.9	354.8
Shareholders' equity, SEK			146.1	104.30
Number of outstanding shares	45,500,688	37,917,240	45,500,688	37,917,240
Average number of shares	44,289,554	40,430,117	41,282,128	40,430,117

**Earnings capacity:** properties disposed of as of the balance sheet date are excluded, and properties acquired by no later than the same date are included as if they had been owned for 12 months. Otherwise, the calculation is based on the following assumptions:

- For those properties where 12 months have passed since Kungsleden took possession, actuals for the last 12 months are included;
- For those properties where more than six months but less than 12 months have passed since Kungsleden took possession, actuals are recalculated to 12-month equivalents;
- For properties where less than six months have passed since Kungsleden took possession, data from acquisition calculations are used.

## Property terminology

**Property yield:** the operating surplus for the year in relation to the average book value of properties. However, the property yield for the earnings capacity is calculated as earnings capacity in relation to the book value of properties at year-end.

**Operating net:** costs for electricity, heating, water, property care, cleaning, insurance and ongoing maintenance less billed operation and maintenance supplements.

**Operation costs:** costs for electricity, heating, water, property care, cleaning, insurance and ongoing maintenance.

**Economic occupancy:** rental revenue, rental discounts and rental losses in relation to rental value.

**Economic vacancy:** assessed market rent for un-occupied floor-space in relation to rental value.

**Property type:** the properties' primary usage (see "Distribution of floor-space").

**Rental revenues:** rent invoiced, plus supplementary items such as remuneration for heating, property tax, insurance claims and other revenues, less rental losses and rental discounts.

**Rental value:** rental revenues plus assessed market rent for un-let floor-space, rental discounts and rental losses, less other revenue.

**Accommodation type:** floor-space distributed by usage.

**Maintenance:** measures intended to maintain a property and its technical systems. Relates to planned measures entailing the replacement or renovation of parts of a building or technical systems. Also includes tenant adaptations.

**Distribution of floor-space:** distribution by accommodation type implies that the floor-space in a property is distributed by usage. There is a division between office, housing, retail, hotel, development, industrial and warehousing. Distribution by property type means the property is defined by that type of floor-space that represents the greatest proportion of total. Accordingly, a property with 51 per cent of its floor-space used as offices is considered an office property.

**Area-based occupancy:** let floor-space in relation to total lettable floor-space at the end of the period.

**Area-based vacancy:** vacant floor-space in relation to total lettable floor-space at the end of the period.

## Financial terminology

**Return on equity:** profit in relation to average shareholders' equity. Stated for profit before and after tax. Average shareholders' equity is calculated as the total of opening and closing balances divided by two.

**Return on total capital:** profit before tax less unrealised values and financial net in relation to average assets. Average assets are calculated as the total of opening and closing balances divided by two.

**Beta value:** the share's correlation with the market's average performance. A beta value of less than one implies that a share price has fluctuated less than the SAX (Stockholm All-share Index). Beta value is a key component of the CAPM (Capital Asset Pricing Model) used to calculate the market's required rate of return on the share. The CAPM indicates that a low beta value implies a low required rate of return. Beta values relate to a period of 12 months.

**Mortgage ratio:** interest-bearing liabilities in relation to property book value at year-end.

**Dividend yield:** dividends paid in the year in relation to the share price at the beginning of the year.

**Shareholders' equity per share:** shareholders' equity in relation to the number of shares at year-end.

**Book value of property per share:** book value of property in relation to the number of shares at year-end.

**Cash flow from operations:** operating profit less net financial items adjusted for value adjustments and items not included in cash flow from operations, and for changes in working capital and tax paid.

**P/E ratio:** share price at the end of the period in relation to earnings per share, in accordance with prevailing forecasts. Year-end share prices in relation to the following year's EPS are used for historical values.

**P/CE ratio:** share prices at the beginning of the year in relation to cash flow from operations.

**Earnings per share:** profit after tax at year-end divided by the weight average number of outstanding shares for the period.

**Interest cover:** profit before tax less unrealised values and financial net in relation to financial position.

**Gearing:** interest-bearing liabilities at year-end in relation to shareholders' equity.

**Equity ratio:** shareholders' equity including minority shares at year-end in relation to total assets.

**Total yield:** the total of the share's price gains and dividends paid in the year in relation to the closing share price at the beginning of the year.

**Profit for calculating dividends:** net profit excluding items not affecting cash flow such as unrealised value changes, depreciation and amortization and deferred tax, although realised value changes are included. Profit for calculating dividends corresponds to the cash flow statement item cash flow from operations.

**Profit margin:** operating surplus in relation to total rental revenue.

## DIVESTED PROPERTIES JANUARY–DECEMBER 2005
