

Strong momentum

- Biomass developments as expected
 - normal temperatures, good growth
- Juvenile update
 - 2,8 million new juveniles put into sea (0,7 at Marin Invest)
 - 2,2 mill juveniles put into sea for on-growing at Marin Invest and for release at Codfarmers spring 2008
- Strong market
 - prices up 18 % YTD
 - reduced quotas and wild catch
- High speed
 - securing value chain
 - Cod Processing, harvesting fully operational
 - Cod Juveniles, start up
 - extra capacity being secured

Financials – as expected

Net growth tons r.w	955t	460t	1620t				

- Q3/07 revenue was 15,5 MNOK. Sales revenues up more than 50 % compared to Q3/06.
- YTD revenue of 27,7 MNOK, reflecting the sales of 941 tons (r.w.) own produced cod and 95 tons (r.w.) of sourced external cod.
- EBIT of 5,6 MNOK in Q3/07 relative to -3,2 MNOK in Q3/06, reflects normal administration costs. Net margin of fish sold of 0,1 MNOK.
- Results from subsidiaries contribute with a EBIT of 0,1 MNOK
- YTD 2007 EBIT of -15,6 MNOK. Net margin of fish sold YTD of - 0,3 MNOK.
- Total assets of 273 MNOK, reflecting 85 MNOK in non current assets and 189 MNOK in current assets.
- Total equity of 246 MNOK
- 54 MNOK in cash and cash equivalents.

Margins – as expected

Highly improved margins due to lower production cost and higher average selling price.

Positive net result for the generation harvested in Q3 of 0,1 MNOK before adm.cost.

Accumulated net margin of – 1,5 NOK pr kg (r.w.) for the Hellevika location with 45 % of expected total biomass still remaining in sea.

Margin improvement of 1,5 NOK per kg (r.w) from Q2/07

Biomass – good growth and control

Gen. HE 0705

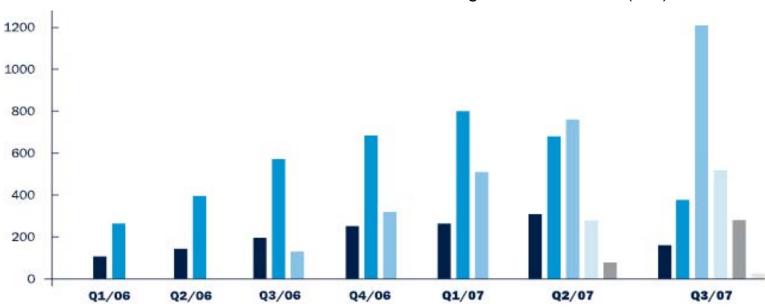

Gen. SKJ 0906 Gen. HA 0507

Gen. KJ 0607 Gen. VI 0907

1400

- A total of 3,1 mill. fish at 5 different locations.
- Three new locations in operation in 2007
- Net growth of 955 tons (r.w.) biomass in Q3/07.

- Normal sea-temperatures (avg. +10 C)
- Mortality slightly increased at the Hellevika and Hammarvika location
- Production cost at Hellevika higher than expected
- No escapes

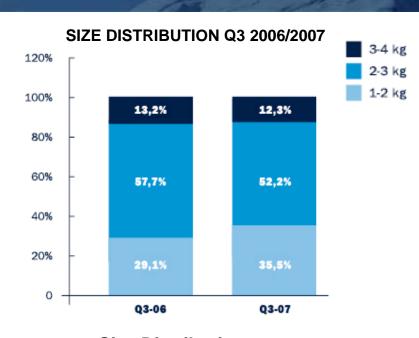

Sales benchmark – price up

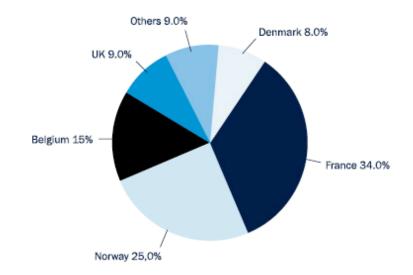

- Average FOB price of 39.30 NOK/kg in Q3/07, up 5 % on Q3/06.
 - 36 % share of 1-2 kg. fish reducing average price, yet catching up with Norwegian average export price
- 31 % share of all Norwegian farmed cod exports in Q3/07

More markets, more costumers

SALES VALUE BY GEOGRAPHICAL MARKETS Q3 2007

- Size Distribution
 - 36 % 1-2 kg fish in Q3/07 vs. 30 % in Q3/06
 - Target size distribution is a 20-60-20 % split
- Geographical Market Split
 - Further spread of sales across European markets with an emphasis on obtaining direct and long term contracts with European retail and HORECA customers
