

TECNOMEN CORP. Stock Exchange Release 28 August 2000 (10:00)

TECNOMEN RECEIVES FIM 11 MILLION ORDER FROM THAILAND

Tecnomen Corp. will deliver a new voice mail system to the Thai Total Acces Communication (TAC) and expand the company's existing prepaid system. The delivery is worth USD 1,746,000 or approximately FIM 11 million. Total Acces Communication is Thailand's second largest mobile telephone operator, with over one million subscribers.

The delivery is significant because the system will be supplied to a customer who used another supplier's system earlier. The number of subscribers for TAC's prepaid system for phone calls has grown rapidly and the system's capacity will be expanded to 250,000 users in connection with the voice mail system delivery.

"Total Acces Communication is a good example of a Tecnomen customer who first began using our Prepaid System and thereafter our Voice Mail System. This delivery establishes a good foundation for other new expansions and Unified Messaging deliveries to this rapidly growing operator," says Tecnomen's President and CEO Vesa Helkkula.

Tecnomen develops and markets telecommunications systems for teleoperators and service providers around the world. Its core products are unified messaging systems, wireless Internet solutions, and prepaid and paging systems.

Founded in 1978, Tecnomen has delivered such systems to over 50 customers. The company has 500 employees and 13 customer service centres worldwide. Tecnomen is listed on the Helsinki Exchanges and is part of the Kyro Group.
