

**TietoEnator and ABB Automation open a partnership within the documentation area**

**TietoEnator and ABB have signed a letter of intent, which implies that TietoEnator takes over parts of ABB's documentation operations. The partnership is a result of the long-term co-operation between TietoEnator and ABB.**

The agreement concerns three divisions within ABB Automation Products and affects some 20 employees in Västerås and Malmö who are all offered employment in the newly started unit.

? The partnership is based on ABB's staff and their expert knowledge in combination with our expertise within documentation and information management? , says Tommy Änst who is responsible for the new unit.

? ABB is a significant customer for us and it feels very satisfying that we are also able to start co-operation within the technical information area", says Carl-Harald Andersson, Managing Director of TietoEnator Technical Consultants. We have broad technical know-how to offer in combination with long experience of information management and technical information.
