Expansion for eWork:

Signs agreement with Länsförsäkringar and Accenture

eWork have been trusted in delivering Länsförsäkringar with qualified IT Consultants. The agreement is regulated in an agreement that remains over three years Länsförsäkringar is a big consultant buyer to eWork since a few years back.

Now the consultants that already are on assignment at Länsförsäkringar will get the opportunity to be in eWorks consultancy pool and they will be offered the companies service and business contacts. Länsförsäkringar will through the agreement avoid lots of administration and work with handing all the consultants and invoicing.

- We offer a solution which is good for all parties. The customer will get less work and don't have to spend time looking for and administrate IT-Consultants. The Consultants will be offered a great network and customers that they otherwise could not work for. It is a win-win concept, says Helena Löfgren, Key Account Manager for Länsförsäkringar at eWork.

eWork also signed agreement with Accenture which means that eWorks shall provide the company with IT competence during a year.

eWork started 2000 and has grown very fast. More than 19000 consultants are in the network, which provide customers with right competence and qualified consultants finds projects. Right now 600 consultants are on assignment through eWork, which is more than 30% growth this year. eWork have agreement with many large national and international companies. We have offices in Stockholm, Malmö/lund, Gothenburg, Jönköping, Copenhagen, Oslo, and Helsingfors. eWorks turnover will reach over 600 millions this year.
