DnB NOR Bank ASA

Third quarter report 2005

The accounts for DnB NOR Bank with subsidiaries, the banking group, are based on Norwegian generally accepted accounting principles and the accounting regulations for banks. For the time being, it is not permissible for unlisted Norwegian banks to prepare the accounts according to IFRS. DnB NOR Bank has taken the opportunity to postpone the implementation of new lending regulations till 1 January 2006.

Introduction

Performance in the DnB NOR Bank Group ¹⁾, hereinafter called "the banking group", in the third quarter of 2005 reflected a high level of market activity and a sound trend. There was a strong rise in lending volume and brisk sales of savings products. The high level of activity in the Norwegian economy combined with historically low interest rate levels and relatively low risk enabled the banking group to record net reversals on losses on loans and guarantees in the third quarter.

The banking group's pre-tax operating profits before losses came to NOK 7 325 million for the first nine months of 2005, up from NOK 7 056 million in the year-earlier period. After taxes, profits rose from NOK 5 118 million to NOK 5 504 million. Return on equity was 18.1 per cent for the first three quarters of 2005, compared with 17.4 per cent in the corresponding period of 2004.

Pre-tax operating profits before losses for the third quarter of the year came to NOK 2 620 million, an increase from NOK 2 135 million in the year-earlier period. After taxes, profits totalled NOK 2 139 million, up NOK 476 million or 29 per cent from the third quarter of 2004. Return on equity was 20.3 per cent in the July through September period, compared with 16.3 per cent a year earlier. The cost/income ratio showed a positive trend, representing 52 per cent for the third quarter of 2005, down from 56.3 per cent in the year-earlier period.

Including 50 per cent of profits, the core capital ratio for the banking group was 7.2 per cent as at 30 September 2005, compared with 7.7 per cent a year earlier.

On 21 June 2005, DnB NOR announced its plans to establish DnB NORD, to be jointly owned with Norddeutsche Landesbank Girozentrale (NORD/LB). An application for a concession to establish the new bank was sent to the Danish authorities during the

¹⁾ DnB NOR Bank ASA is a subsidiary of DnB NOR ASA and part of the DnB NOR Group. The DnB NOR Bank Group, hereinafter called "the banking group", comprises the bank and the bank's subsidiaries. Other companies owned by DnB NOR ASA, including Vital Forsikring and DnB NOR Kapitalforvaltning, are not part of the banking group. Operations in DnB NOR ASA and the total DnB NOR Group are not covered in this report but described in a separate report and presentation.

third quarter. The bank's head office will be located in Copenhagen, and operations are expected to start up before the end of the year. As part of the agreement, DnB NOR took over the Swedish operations of NORD/LB during the third quarter of 2005, thus doubling its banking operations in Sweden.

The process of adapting to the new capital adequacy regulations, Basel II, is well under way in the banking group. During the third quarter of 2005, DnB NOR sent an application to Kredittilsynet (the Financial Supervisory Authority of Norway) for permission to use internal measurement methods (IRB) for credit risk in calculating the Group's capital adequacy according to the new regulations as from 2007.

Net interest income

Net interest income totalled NOK 3 376 million in the third quarter of 2005, up NOK 54 million compared with the third quarter of 2004.

Growth in average lending and deposit volumes of NOK 59 billion and NOK 40 billion respectively from the third quarter of 2004 boosted net interest income by NOK 310 million. The combined spread contracted by 0.20 percentage points compared with the year-earlier period, reducing net interest income by NOK 288 million from the third quarter of 2004.

Other balance sheet items, including the net result on problem commitments, showed an increase of NOK 32 million.

Net other operating income

Net other operating income amounted to NOK 2 080 million in the third quarter of 2005, up NOK 517 million compared with the corresponding period of 2004.

Net commission income rose by NOK 161 million. Net gains on foreign exchange and financial instruments were up NOK 308 million compared with the year-earlier period, while net gains on the sale of fixed assets were up NOK 53 million.

Net other operating income represented 38.1 per cent of total income in the third quarter of 2005, as against 32 per cent in the year-earlier period.

Operating expenses

Operating expenses totalled NOK 2 836 million in the third quarter of 2005, up NOK 85 million from the year-earlier period.

Salaries and other personnel expenses showed an increase of NOK 59 million from the third quarter of 2004. Wage settlements led to a NOK 27 million rise in expenses in the third quarter. Performance-based pay increased by NOK 86 million compared with the year-earlier period.

Marketing expenses rose NOK 33 million from the third quarter of 2004.

The realisation of synergies was ahead of the integration plan, and synergies resulting from the merger were NOK 154 million higher in the third quarter of 2005 than in the year-earlier period.

Loan-loss provisions

The banking group recorded net reversals on losses on loans and guarantees of NOK 102 million in the third quarter of 2005. Corresponding figures for the third quarter of 2004 showed net reversals of NOK 121 million. New losses and loan-loss provisions amounted to NOK 209 million in the third quarter of 2005, while reversals on previous losses and loan-loss provisions totalled NOK 311 million. The third quarter of 2004 saw new losses of NOK 289 million and reversals of NOK 410 million.

The banking group recorded low losses on both retail and corporate loan portfolios.

After deductions for specified provisions, net non-performing and doubtful commitments came to NOK 5 206 million at end-September 2005, a decline of NOK 768 million from 31 December 2004. Net non-performing and doubtful commitments thus represented 0.8 per cent of net lending as at 30 September 2005, compared with 1.25 per cent a year earlier.

Net gains on long-term securities

Net gains on investments in long-term securities amounted to NOK 208 million in the third quarter of 2005, which can be largely attributed to the sale of the banking group's assets in Brazil.

Taxes

The banking group's tax charge for the third quarter of 2005 was NOK 791 million, based on an anticipated average tax rate of 27 per cent of pre-tax operating profits.

Balance sheet

Total assets in the banking group's balance sheet were NOK 832 billion as at 30 September 2005 and NOK 717 billion a year earlier.

Net lending to customers rose by NOK 77 billion, with NOK 35 billion and NOK 42 billion referring to the retail and corporate markets respectively. The rise in lending to retail customers mainly represented well-secured housing loans.

The ratio of customer deposits to net lending to customers was maintained at a satisfactory level, standing at 63.2 per cent at end-September 2005, up from 62.1 per cent a year earlier.

Risk and capital adequacy

Credit demand in the corporate market increased during the third quarter with particularly strong growth in lending to the service industry. There was brisk activity in the shipping sector. As large credit volumes will be partly syndicated in the market, however, lower growth is expected in the fourth quarter. There was continued growth in housing loans, and housing prices were up around 10 per cent on an annual basis. Moderate losses on loans show that the current state of the Norwegian and international economies has a favourable impact on credit risk.

Market risk declined during the July through September period due to a net reduction in the banking group's equity exposure of

around NOK 750 million. The sale of equity holdings in fish-farming companies ensured a reduction in the banking group's risk exposure in this industry in the third quarter. There were no changes in the banking group's operational and business risk during the third quarter.

Risk-weighted volume included in the calculation of the capital adequacy requirement rose by NOK 30 billion during the third quarter, to NOK 591 billion at end-September. Including 50 per cent of profits, the banking group's core capital ratio was 7.2 per cent as at 30 September 2005, while the capital adequacy ratio was 10.2 per cent. Excluding profits for the period would reduce the ratios to 6.8 and 9.7 per cent respectively.

Including 50 per cent of profits DnB NOR Bank ASA had a core capital ratio of 7.3 per cent, and a capital adequacy ratio of 10.4 per cent.

Integration

Integration in the banking group moved along smoothly during the third quarter. The process receives high priority and is followed closely by the Board of Directors and group management. Merger plans included staff cuts of 1 425 full-time positions and cost synergies of NOK 1 600 million. The synergies are scheduled to be realised over a period of three years, with full effect as from 2007.

During the first nine months of 2005, synergies of around NOK 952 million were realised. The accumulated annual cost synergy target set for end-December 2005 is NOK 960 million.

Organisation

The retirement age of the group chief executive is 60 years. The Board of Directors has asked the group chief executive to continue beyond this age, and an agreement has been reached whereby he will retire on 1 January 2007.

Prospects for the rest of the year

The Norwegian economy has developed favourably and shows a broad-based upturn. Optimism in the business community and the household sector is high.

Growth in domestic corporate credit demand is expected to remain brisk for the rest of the year. Due to the strong krone and low interest levels, companies have repaid much of their foreign debt and increased borrowings from Norwegian credit institutions. The strong krone exchange rate could impair the competitiveness of the export industry.

Credit growth in the household sector is expected to remain high throughout 2005. The labour market shows a positive trend.

Competition in the home mortgage market has intensified in recent years. In order to meet the competition, the banking group has established the company DnB NOR Boligkreditt AS. Once new legislation is in place in 2006, the company will be able to ensure lower-priced funding of the banking group's home mortgage portfolio in international financial markets through the issue of covered bonds, to the benefit of customers and DnB NOR's shareholders.

Outside Norway, the banking group will enhance its position through the establishment of DnB NORD, which will be represented in Denmark, Finland, the Baltic region and Poland, and the takeover of NORD/LB's operations in Sweden. Expansion in these market areas will strengthen the banking group's future growth platform and income base, in addition to a further diversification of the credit portfolios.

The first weeks in October saw a downturn in the stock market. The banking group is well positioned to handle stock market volatility.

Note 1 – Accounting principles

The quarterly accounts are based on Norwegian accounting legislation, the accounting regulations issued by Kredittilsynet (the Financial Supervisory Authority of Norway) and Norwegian generally accepted accounting principles. The quarterly accounts comply with NRS 11 – the Norwegian accounting standard for interim reporting. A more detailed description of the bank's accounting principles can be found in the annual report for 2004.

Kredittilsynet has issued regulations on the accounting treatment of loans and guarantees effective as of 1 January 2005. According to transitional provisions, however, only companies with shares listed on the stock exchange are required to comply with the new regulations as from this date. Other companies may postpone implementation by one year. DnB NOR Bank has chosen to defer implementation until 1 January 2006.

7.9	-	7.3	Core capital ratio (per cent)	7.2	-	7.7
11.3	-	10.4	Capital ratio (per cent)	10.2	-	10.9

1) Perpetual subordinated loan capital securities can represent up to 15 per cent of core capital. The excess will qualify as perpetual supplementary capital.

2) Calculations of capital adequacy include a total of NOK 578 million in subordinated loan capital in associated companies, in addition to subordinated loan capital in the banking group's balance sheet.

3) Primary capital and nominal amounts used in calculating risk-weighted volume deviate from figures in the DnB NOR Bank Group's accounts as a different consolidation method ("pro rata consolidation") is used in calculating capital adequacy.

All figures are presented in accordance with rules prevailing at the time in question.

Contingencies

Due to its extensive operations in Norway and abroad, the DnB NOR Bank Group will regularly be party to a number of legal actions. None of the current disputes are expected to have any material impact on the banking group's financial position. The disputes involving the highest amounts are described in the annual report for 2004. Below is a description of developments in the legal disputes during the first three quarters of 2005.

In 2004, Nordlandsbanken ASA filed a suit against KPMG, claiming compensation on the basis of KPMG's audit of Finance Credit AS. The parties reached agreement in the damage suit, and Nordlandsbanken received a final settlement of NOK 45 million. The settlement ensured reversals on previous loan-losses in the third quarter of 2005.

Finance Credit AS' estate in bankruptcy filed a claim in 2004 to reverse the debtor's repayment of credit facilities in Union Bank of Norway ASA (now DnB NOR Bank ASA) in autumn 2001 and spring 2002. The amount of the claim was NOK 160 million. The District Court found in favour of the bank. The sentence was appealed and the appeal was later dropped.

Patricia Long and Wien Air Alaska Inc. have filed a suit against DnB NOR Bank ASA before a US court, claiming compensation of USD 160 million. The bank disputes the claim and has requested that the case be dismissed.
